Introduction to Sociology 2e adheres to the scope and sequence of a typical, one-semester introductory sociology course. It offers comprehensive coverage of core concepts, foundational scholars, and emerging theories, which are supported by a wealth of engaging learning materials. The textbook presents detailed section reviews with rich questions, discussions that help students apply their knowledge, and features that draw learners into the discipline in meaningful ways. The second edition retains the book's conceptual organization, aligning to most courses, and has been significantly updated to reflect the latest research and provide examples most relevant to today's students. In order to help instructors transition to the revised version, the 2e changes are described within the preface. The images in this textbook are grayscale. Authors include: Heather Griffiths, Nathan Keirns, Eric Strayer, Susan Cody-Rydzewski, Gail Scaramuzzo, Tommy Sadler, Sally Vyain, Jeff Bry, Faye Jones

The 72nd edition of the Playfair Cricket Annual is packed with all the information you need to follow the cricket season in 2019. As fans look forward to a bumper summer, with the Cricket World Cup and an eagerly anticipated Ashes series, cricket will rarely have had so much exposure. There are comprehensive Test match and limited-overs records and career records to help you follow the action, as well as series records against Australia. For the first time, England will also play Ireland in Test match cricket. County cricket is covered in unrivalled depth, with biographies of all players registered to the counties at the start of the season, full coverage of last summer's events and a fixture list for all major domestic matches in 2019. There are also sections on Ireland's cricketers, women's cricket, the major domestic T20 competitions from around the world, while the Editorial assesses the looming arrival of The Hundred in 2020. For any cricket fan, the season is never complete without a copy of Playfair to guide you through it all.

Henry Mancini's Peter Gunn theme. Lalo Schiffrin's Mission: Impossible theme. Isaac Hayes' theme from Shaft. These iconic melodies have remained a part of the pop culture landscape since their debuts back when movie studios and TV production companies employed full orchestral ensembles to provide a jazz backdrop for the suspenseful adventures of secret agents, private detectives, cops, spies and heist-minded criminals. Hundreds of additional films and television shows made from the mid-1950s and beyond have been propelled by similarly swinging title themes and underscores, many of which have (undeservedly) faded into obscurity. This meticulously researched book begins with Hayes' game-changing music for Shaft, and honors the careers of traditional jazz composers who--as the 1970s gave way to the '80s and beyond--resolutely battled against the pernicious influx of synth, jukebox scores and a growing corporate disinterest in lavish ensembles. Fans frustrated by the lack of attention paid to jazz soundtrack composers--including Mort Stevens, Laurie Johnson, Mike Post, Earle Hagen, David Shire, Elmer Bernstein and many, many others--will find solace in these pages (along with all the information needed to enhance one's music library). But this is only half the story; the saga's origins are discussed in this book's companion volume, Crime and Action Jazz on Screen: 1950-1970.

Current drug treatments for Alzheimer's disease (AD) appear to be symptomatic. There is an increasing priority to find effective and safe disease-modifying and preventive treatment strategies for cognitive decline, AD, and dementia. Recent developments have allowed the identification of possible pathogenic processes and pathways, and potential targets for intervention. Cerebrospinal fluid (CSF) biomarkers of β -amyloid and tau, and neuroimaging including amyloid PET tracer retention show that the pathogenic process begins many years before symptoms appear. A number of preventive trials have been completed but so far none has demonstrated significant benefits and some were potentially harmful. New preclinical treatment trials are underway in people at the highest risk of developing AD in the following few years. A US National Institutes of Health panel found no evidence of even moderate scientific quality to clearly support the association of any modifiable factors with a reduced risk of cognitive decline or AD. The best current evidence suggests that heart-healthy eating patterns such as the Mediterranean diet may help to protect the brain. Future preventive approaches will need to harness the increased technological advances concerning biomarkers with new hypotheses driven by a better understanding of the relevant risk factors.

As a cricketer, David Gower was famed for the elegance of his strokeplay as one of England's greatest batsmen and for his superb fielding. As a captain, he led his country to Ashes success, yet some queried his application because it all seemed to come to him so easily and effortlessly. But that was never the whole story: Gower was always committed and a great competitor, as this fascinating and frank book, looking back on his life and career, shows. Once he retired from the game, Gower built a new career for himself, first as team captain in the long-running TV comedy series They Think It's All Over, and then as an astute and charming presenter and commentator with Sky Sports. After more than 30 years as one of the most popular figures in the game, Gower now reveals there is so much more to his story than the cliched image of 'Lord' Gower flying in his Tiger Moth. He is a man of great insight, determination and drive, but who also knows there is always more to be had from life.

"Draws upon the experiences of hundreds of former players as they describe their lives after their football days are over. It also incorporates stories about their playing careers, even before entering the NFL, to provide context for understanding their current situations. The authors begin with an analysis of the 'bubble'-like conditions of privilege that NFL players experience while playing, conditions that often leave players unprepared for the real world once they retire and must manage their own lives. The book also examines the key issues affecting former NFL players in retirement: social isolation, financial concerns, inadequate career planning, psychological challenges, and physical injuries"--Amazon.com.

The National Education Finance Academy (NEFA) has completed a project providing a one-of-a-kind practical book on funding P-12 education in the United States. The book, entitled Funding Public Schools in the United States and Indian Country is a single volume with a clear and short chapter about each state. Approximately 50% of chapters are authored by university faculty who are members of NEFA; approximately 25% of chapters are authored by state department of education officials and/or state school board association officials; and the remaining 25% of chapters are authored by ASBO affiliate states. Each chapter contains information about:

- Each state's aid formula background;
- Basic support program description and operation (the state aid formula) including how school aid is apportioned (e.g., state appropriations, local tax contributions, cost share ratios, and more);
- Supplemental funding options relating to how school districts raise funds attached to or above the regular state aid scheme;
- Compensatory programs operated in school districts and how those are funded and aided;
- Categorical programs operated in school districts and how those are funded and aided;
- Any funding supports for transportation operations;
- Any funding supports for physical facilities and operations; and
- Other state aids not covered in the above list.
