“ Within twenty-four standard hours we will sit firmly astride the communications link that connects the worlds of the Republic. . . . Our control will be a dagger thrust directly at Coruscant. This is the move that will win the war for us. ” With these ominous words, Pors Tonith, ruthless minion of Count Dooku, declares the fate of the Republic sealed. Commanding a Separatist invasion force more than one million strong, the cunning financier-turned-warrior lays siege to the planet Praesitlyn, home of the strategic intergalactic communications center that is key to the Republic ’ s survival in the Clone Wars. Left unchallenged, this decisive strike could indeed pave the way for the toppling of more Republic worlds . . . and ultimate victory for the Separatists. Retaliation must be swift and certain. But engaging the enemy throughout the galaxy has already stretched Supreme Chancellor Palpatine ’ s armies to the limit. There is no choice but to move against the surging waves of invading battle-droids on Praesitlyn with only a small contingent of clone soldiers. Commanding them will be Jedi Master Nejaa Halcyon – hand-picked by the Council for the do-or-die mission. And at his side, skilled young starfighter pilot Anakin Skywalker, a promising young Jedi Padawan eager to be freed of the bonds of apprenticeship – and to be awarded the title of Jedi Knight. Shoulder to shoulder with a rogue Republic army officer and his battle-hardened crew, a hulking Rondian mercenary with an insatiable taste for combat, and a duo of ready-for-anything soldiers, the Jedi generals take to the skies and the punishing desert terrain of occupied Praesitlyn – to bring the battle to the Separatist forces. Already outnumbered and outgunned, when confronted with an enemy ultimatum that could lead to the massacre of innocents, they may also be out of options. Unless Anakin Skywalker can strike a crucial balance between the wisdom born of the Force . . . and the instincts of a born warrior. Features a bonus section following the novel that includes a primer on the Star Wars expanded universe, and over half a dozen excerpts from some of the most popular Star Wars books of the last thirty years!

A large and spectacular bird of prey, the Goshawk lives in boreal forests throughout the Northern hemisphere. A powerful hunter of large birds and woodland mammals, it was persecuted for many years by game keepers to the point of extinction in the UK. However, escaped falconry birds led to the establishment of a new population in the 1960s, though the species remains rare and elusive - birders need a combination of hard work and a little luck to see this magnificent raptor. The Goshawk is an authoritative yet highly readable monograph of the species. It includes chapters on nomenclature, races and morphs, biometrics, nesting, incubation and chick-rearing, migration, feeding ecology, population dynamics, and conservation, punctuated throughout with illuminating tales from author Robert Kenward's extensive field research. The book is packed with illustrations, figures and maps, and contains a selection of the author's superb photographs of the birds. The product of almost 30 years work, this title is a classic Poyser monograph; birders will enjoy the fascinating insights into the biology of the bird, while academics will appreciate the book's comprehensive literature review.

The Prose Works of Henry Wadsworth Longfellow, with Bibliographical and Critical Notes

Chameleon Writer

Longfellow experimented with many forms, including hexameter and free verse. His published poetry shows great versatility, using anapestic and trochaic forms, blank verse, heroic couplets, ballads and sonnets. Typically, Longfellow would carefully consider the subject of his poetic ideas for a long time before deciding on the right metrical form for it. Much of his work is recognized for its melody-like musicality. As he says, "what a writer asks of his reader is not so much to like as to listen." As a very private man, Longfellow did not often add autobiographical elements to his poetry. Two notable exceptions are dedicated to the death of members of his family.

"Resignation," written as a response to the death of his daughter Fanny in 1848, does not use first-person pronouns and is instead a generalized poem of mourning. The death of his second wife Frances, as biographer Charles Calhoun wrote, deeply affected Longfellow personally but "seemed not to touch his poetry, at least directly." His memorial poem to her, a sonnet called "The Cross of Snow," was not published in his lifetime. Longfellow often used didacticism in his poetry, though he focused on it less in his later years. Much of his poetry imparts cultural and moral values, particularly focused on promoting life as being more than material pursuits. Longfellow also often used allegory in his work. In "Nature," for example, death is depicted as bedtime for a cranky child. Many of the metaphors he used in his poetry as well as subject matter came from legends, mythology, and literature.

The Present Age challenges readers to reexamine the role of the United States in the world since World War I. Nisbet criticizes Americans for isolationism at home, discusses the gutting of educational standards, the decay of education, the presence of government in all facets of life, the diminished connection to community, and the prominence of economic arrangements driving everyday life in America. This work is deeply indebted to the analyses of Tocqueville and Bryce regarding the threats that bureaucracy, centralization, and creeping conformity pose to liberty and individual independence in the western world. The Present Age relates a tragedy--the unprecedented militarization of American life in the decades after 1914, as the result of the necessary resistance to National Socialist and Communist totalitarianism that fed into and reinforced the profound tendencies toward centralization within modern society. Robert Nisbet (1913-1996), former professor of sociology at Columbia University, is the author of *Sociology as an Art Form*; *The Social Philosophers*; *Prejudices: A Philosophical Dictionary*; *The Sociological Tradition*; *History of the Idea of Progress*; and *Twilight of Authority*, also published by Liberty Fund.
