In many ways a diesel engine is less complicated than a petrol engine, with greater reliability and a longer working life. There is little difference between servicing a diesel and a petrol engine except that the diesel has no ignition system to worry about. However, the fuel system needs very careful attention, as part of the regular service, to prevent dirt and water in the fuel damaging it.

Semi-synthetic engine oil is a mixture of synthetic and mineral engine oil, and full-synthetic oil is entirely artificial. Semi-synthetic motor oil offers better engine protection than mineral oil but not all the benefits of full-synthetic. Full-synthetic motor oil changes are more expensive than semi-synthetic oil changes.
