The automotive
industry underwent
great change in the

1960s and the early 1970s. The continuing trend toward market consolidation, the proliferation of sizes and nameplates, and the “need for speed” characterized this period, loosely labeled as the muscle car era. This is an exhaustive reference work to American made cars of model years 1960 – 1972. Organized by year (and summarizing the market annually), it provides a

yearly update on each make ’ s status and production figures, then details all models offered for that year. Model listings include available body styles, base prices, engine and transmission choices, power ratings, standard equipment, major options and their prices, curb weight and dimensions (interior and exterior), paint color choices, changes from the previous year ’ s model, and sales

figures. Also given are assembly plant locations and historical overviews of each model nameplate. The book is profusely illustrated with 1,018 photographs. *Chilton's Auto Repair Manual* Haynes Publications The record of each copyright registration listed in the Catalog includes a description of the work copyrighted and data relating to the copyright claim (the name of the copyright claimant as given in the

application for registration, the copyright date, the copyright registration number, etc.).
