The automotive industry underwent great change in the 1960s and the early 1970s. The continuing trend toward market consolidation, the proliferation of sizes and nameplates, and the " need for speed " characterized this period, loosely labeled as the muscle car era. This is an exhaustive reference work to American made cars of model years

1960 – 1972. Organized by year (and summarizing the market annually), it provides a yearly update on each make ' s status and production figures, then details all models offered for that year. Model listings include available body styles, base prices, engine and transmission choices, power ratings, standard equipment, major options and their prices, curb weight and dimensions (interior and exterior), paint color choices, changes from the previous year ' s model, and sales figures. Also given are assembly plant locations and historical overviews of each model nameplate. The book is profusely illustrated with 1,018 photographs.

This Pontiac parts interchange manual has been designed to help you in the purchase and identification of original equipment parts. It will save many hours of time locating the parts you need. With this manual you will know exactly what parts from which GM vehicles are identical. There may be no need to pay a high price for a supposedly rare part when it may be identical to many other vehicles parts. Many parts interchange between different years, makes and models. For example a part from a 53 Pontiac may be the same as for a 55 Cadillac or a part from a 65 Chevy Impala may be the same as a part for 64 Buick. This manual may not only save you money, it could be a great reference source for your restoration project. It includes a model identification chart, engine identification information, serial number charts, original factory part numbers, for certain parts it includes casting numbers, and more. The manual is broken down by the major groups listed below and each of these groups is further broken down into specific parts. For example under the body group it lists everything from bumpers to window regulators. Below are the groups and a sample of what is included in each group.

Axel group Shafts, housing, gears, etc.

Roy Cross RSMA GAvA began work as an illustrator in Fairey Aviation during World War II. Over the next thirty years, he progressed from line illustration, via colour artwork, to top-class advertising art for the aircraft industry and other companies, including Airfix, for whom he produced many hundreds of artworks to adorn model kit boxes over a ten-year period. His illustrations for Airfix included superb depictions of aircraft, cars, ships, spacecraft, armoured vehicles and dioramas. Though Roy is perhaps most famous for his Airfix box art, his work has encompassed book and magazine illustrations, including highly detailed cutaways and other technical drawings. In more recent years, Roy has concentrated on the production of his magnificent maritime paintings.

Published to coincide with the 60th anniversary of the 250F's debut and first World Championship success this new Haynes manual captures the best of this car. The Maserati 250F is one of the classic grand prix cars of all time and won F1 World Championships in 1954 and 1957, both in the hands of Juan Manuel Fangio. Stirling Moss, who won the 1956 Monaco Grand Prix in a 250F, described the car as the nicest front-engined F1 car he drove during his career. Here, in this new Haynes Manual, is a unique perspective on what it takes to restore, maintain and race a Maserati 250F, as well as an insight into the design, engineering, and development and period race history of this iconic racing car.
