How to Care for the Paint on Your Car | YourMechanic Advice

Car Paint Care made simple by the Car Detailing Expert

Repairing solid paint is easy: small stone chips can simply be filled in with a touch-up pen in the appropriate shade.

Any car spares shop (Halfords, etc) can supply the right pen for not much money. More significant repairs are comparatively easy, too, as the paint dries out quickly with the aid of a simple heat lamp.

Your ultimate guide to the different types of car paint

Fit a fresh finishing pad to the machine. Apply a couple of drops of sealant onto the finishing pad. With the machine off, use the pad to spread some car paint sealer around. Select a low speed and spread the sealant evenly. Select a high speed and work the sealant in at around five inches per ...
