Around 85 children die each year in the UK due to abuse or neglect. A number of these deaths are later deemed preventable because the child involved was known to either social services or to a health professional. Cases such as those of Baby P and Victoria Climbié highlighted the failings of these organisations, ones set up to safeguard children. It is the responsibility of every health professional worldwide to identify and respond to child abuse and yet that very responsibility is both emotionally and strategically challenging. The Child Protection Practice Manual: Training practitioners how to safeguard children equips professionals with the ability to recognise a child at risk and the knowledge of how to work with a child already suffering abuse. Practical advice is offered on how to navigate the multi-disciplinary processes. Fictional case studies and exercises immerse the reader in scenarios. Building on this, the authors lead readers through learning points, recommendations, and legislation. With new definitions in child protection ranging from child sexual exploitation, gang violence, radicalisation and internet bullying through to female genital mutilation, witchcraft and spirit possession, honour based violence and forced marriage, this book will be a valuable resource for qualified paediatricians and those in training, as well as professionals who have contact with children such as GPs, nurses, health visitors, social workers, midwives, teachers, lawyers, and community workers.

Is it really possible to raise an eco-baby without breaking the bank? While the average parents spend almost \$7,000 gearing

up for a new addition, pregnant pals Joy Hatch and Rebecca Kelley each shelled out less than a thousand—and they did it by going green. In *The Eco-nomical Baby Guide*, the authors prove that bringing up baby can be easy on the pocketbook and the planet. Focusing on the reduce, reuse, recycle mantra and writing in a humorous but straightforward style, these resourceful mothers dish about everything from eco-friendly diapers to daycare, making green living with baby accessible to everyone—even those on the slenderest of budgets. Your baby's happiness and safety top Hatch and Kelley's agenda as they offer tips on shopping for new and used green goods, blending homemade organic baby food, and limiting the piles of baby gear that threaten to overtake the living room.

*Kids, Parents, and Technology: An Instruction Manual for Young Families* Lippincott Williams & Wilkins

The hidden patterns behind the way we make decisions Several recent books, from *Blink* to *Freakonomics* to *Predictably Irrational*, have examined how people make choices. But none explain why different people have such different styles of decision making—and why those styles seem consistent across many contexts. For instance, why is a gambler always a gambler, whether at work, on the highway, or in a voting booth? Scott de Marchi and James T. Hamilton present a new theory about how we decide, based on an extensive survey of more than thirty thousand subjects. They show that each of us possesses six core traits that shape every decision, from what to have for lunch to where to invest. We go with “the usual” way of deciding whenever there's a trade-off between current and future happiness, when facing the risk of a bad outcome, or when a choice might hurt other people. We're also consistent about how much information we want and how much we care about the opinions of others. Readers can determine their own decision-making profile with a test in the book. Once they understand the six core traits, they'll have a big advantage in their marketing campaigns, management strategies, investments, and many other contexts.

*The Must-have Mom Manual* The Rosen Publishing Group, Inc

A parenting guide tailored to gay dads in the post-DOMA era, featuring advice from pediatricians, educators, lawyers, and other same-sex parents. More and more gay men are turning to adoption and surrogacy to start their own families. An estimated two million American LGBTQ people would like to adopt, and an estimated 65,000 adopted children are living with a gay parent. In 2016, *The Chicago Tribune* reported that ten to twenty percent of donor eggs went to gay men expanding their families via surrogacy, and in many places the numbers were up fifty percent from the previous five years. Having a kid is like coming out all over again—daily—especially if you have an infant. If you found coming out stressful, it's about to get more intense. You will have a child observing your every word and action. If you stutter or pause, they could pick up on your discomfort and may begin feeling like something is wrong about their family unit. But don't worry! This guide is packed with tools to build your confidence and become the awesome dad you were meant to be. Unlike

other parenting books with whole chapters dedicated to mothers (such as how to get the perfect latch when breastfeeding), this book offers subjects more relevant to gay fathers. It addresses how to find LGBTQ-friendly pediatricians and schools, how to childproof your home with style, how to answer potentially awkward questions about your family from strangers (like “Where is their mother?”), how two-dad families can celebrate Mother's Day, and much more. The book also includes tips and advice from pediatricians, school educators, lawyers, and other same-sex parents. "O'Reilly Media, Inc."
