No matter what kind of music you like, or how softly or loudly you like to listen, a quality sub can really improve your overall listening experience. Car speakers are small, so they have trouble producing enough low-

frequency sound to give your music realism and depth.

Top 7 Best Car Subwoofers (2020 Reviews & Buying Guide)

Do not only consider the size of the subwoofer. You should consider the power, sensitivity rating, and enclosure type. If you would like the system to play loud, low music, and you also have enough space, then choose the biggest

subwoofer possible. Do not underestimate the small subwoofer. If the subwoofer is installed correctly and with the correct enclosure type, then the subwoofer can perform just the same or better than the big ones.

Best 8 inch subwoofers for Car - Buyer's Guide and Reviews

The ZVX-8 car subwoofer can not only blow the roof off with its loudness but does so with perfection, sounding phenomenal. The ZVX-8 car subwoofer comes equipped with a high-quality cooling system designed to maintain level temps even if you are using the highest power ratings possible. In addition, a 25" high

temperature coil combines with the advanced cooling system to provide thorough efficiency.
