The Payment Card Industry Data Security Standard (or PCI DSS)
is a set of 12 binding requirements that are designed to
ensure complete data protection for merchants who take card
payments from the major card schemes, such as VISA,
MasterCard, AMEX, Discover and JCB. Our pioneering Level 1 PCI
DSS certified solutions are built around your call center and
processes, so your customer service operation will remain
exactly as you want it to be.
PCI DSS FAQs - PCI Compliance Guide | Payment Card ...
PCI DSS Overview. 'PCI' stands for Payment Card Industry and 'DSS'
stands for Data Security Standards. This Standard includes
requirements for any business that stores, processes or transmits
payment cardholder data. The five major card brand networks (Visa
Inc., MasterCard Worldwide, American Express, Discover Financial
Services, and JCB) established the PCI DSS requirements.
pci – Card Payment Solutions
A: The Payment Card Industry Data Security Standard (PCI DSS) is a
set of security standards designed to ensure that ALL companies
that accept, process, store or transmit credit card information
maintain a secure environment. The Payment Card Industry Security
Standards Council (PCI SSC) was launched on September 7, 2006 to
manage the ongoing evolution of the Payment Card Industry (PCI)
security standards with a focus on improving payment account
security throughout the transaction process.
