A: The Payment Card Industry
Data Security Standard (PCI
DSS) is a set of security
standards designed to ensure
that ALL companies that accept,
process, store or transmit

credit card information maintain a secure environment. The Payment Card Industry Security Standards Council (PCI SSC) was launched on September 7, 2006 to manage the ongoing evolution of the Payment Card Industry (PCI) security standards with a focus on improving payment account security throughout the transaction process.

PCI DSS FAQs - PCI Compliance Guide | Payment Card ...

PCI DSS Overview. 'PCI' stands for Payment Card Industry and 'DSS' stands for Data Security Standards. This Standard includes requirements for any business that stores, processes or transmits payment cardholder data. The five major card brand networks (Visa Inc., MasterCard Worldwide, American Express, Discover Financial Services, and JCB) established the PCI DSS requirements.
