The Cardiology Intensive Board Review Question

Book Lippincott Williams & Wilkins

Cardiology is a large and critical branch of internal medicine, and as such covers a vast amount of the knowledge tested in Membership of the Royal Colleges of Physicians (MRCP) exams. This study guide contains 150

multiple choice questions (MCQs), each with various numbers of stem answers. The questions cover a wide range of both cardiology and cardiovascular pharmacology and encompass both basic anatomy and physiology of the heart, through to advanced topics such as evidence-based medicine. The questions are supplemented at the back of the book with explanatory answers to aid further revision and study.

Pediatric Cardiology Board Review McGraw

Hill Professional This user-friendly review question book is geared specifically to candidates taking the Cardiovascular Boards and the Cardiovascular section of the Internal Medicine Boards, whether for initial certification or for recertification. The book contains over 700 questions with answers, focusing on the specific areas tested. Content areas are covered in the same proportion as on the actual exam to ensure highly targeted, high-yield preparation.

This edition's questions are based on patient-oriented scenarios to mimic the Boards. The electrophysiology chapters have been completely revised and include more tracings. Sections on heart failure, coronary artery disease, and STEMI treatment have been significantly revised to reflect current American Heart Association-American College of Cardiology guidelines.
