**Cardiovascular Study Guide Flashcards | Quizlet**  
Circulatory System Study Guide A stethoscope is used to listen to heart sounds. Lub dub, lub dub is the sound made by the valves in the heart. The valves keep the blood moving in the correct direction through the heart. Your heart is about the size of your fist..

The cardiovascular system can be compared to a muscular pump equipped with one-way valves and a system of large and small plumbing tubes within which the blood travels. Heart Structure and Functions The modest size and weight of the heart give few hints of its incredible strength.
