Job Won! South Western Educational Publishing

You already know that job hunting can be difficult. It can be tough in a good job market. In a bad job market, it can be brutal. You get rejection after rejection. You're constantly faced with the Black Hole of job hunting: You complete applications, post resumes and make contacts, but get no response at all. It can be hard to keep going, and many job hunters have periods of doing far too little - and even slowing down just when they need to speed up. And sometimes it's hard to know what kind of effort to make. Should you make more phone calls? Use more social networking sites? Find more job boards? Make more contacts? A professional career coach could assist you with all of this. However, many job hunters are unemployed and not in a position to hire a coach. A **PROVEN SYSTEM** But now, there's another solution. Rather than

hunker down alone in a home office, you can do your job hunting as part of a Job Search Work Team. Team members do not need to be experts, since they're using a proven system - one that's been successfully used by a 300-office global career services company for over 20 years. Job Search Work Teams have helped thousands of job hunters find great new jobs faster. Team Up! shows you the university research that explains why and how these teams are so successful. And the book tells you exactly what to do to join, start or lead one of these teams. Teams have been shown to shorten job searches by 20%. That could cut a five-month search to four months, and save you a full month's salary. **ENDORSED BY EXPERIENCED CAREER PROFESSIONALS** Career professionals who have used Job Search Work Teams are enthusiastic about their value for job hunters. On the first two pages of Team Up!, you'll see endorsements

from people with a combined total of 200 years experience as professional career coaches. On the back cover of the book, you'll see endorsements from leaders of church, synagogue and nonprofit programs that use these teams. In that kind of program, teams are usually led by the job hunters themselves. The teams have proven successful when led by professional leaders, volunteer workers, or team members. But however they're led, it's important that all team members understand exactly how they work and what to do in meetings to help make every member's search more effective, more comfortable and faster. Team Up! explains the whole thing, step-by-step, telling you exactly how you can start, join or lead one of these teams. **JOB SEARCH WORK TEAMS OFFER:** *** A comfortable, supportive weekly meeting that's focused on making every team member's job search more effective this week than it was last week. ***

Networking assistance, since every member has two dozen eyes and ears on the lookout for job leads and job market information -- not just two. *** An advisory group to answer questions, enumerate options, and provide objective advice. *** A simple progress measurement system that allows job hunters to answer three key questions: (1) "Before you start getting job interviews, how do you know whether you're making progress? (2) How much progress did you make this week? (3) Which of your efforts are producing the progress? **TEAM UP! TELLS YOU:** +++ How to join an existing Job Search Work Team. +++ How to start your own team if there isn't one near you. +++ How to ensure that every weekly team meeting is safe, comfortable and highly productive for everyone in the room. +++ How to use teams in church, synagogue or community job search assistance programs. +++ How to make your job search more

effective - even if you decide not to join a Job Search Work Team. The book is written for career professionals as well as job hunters. It includes a message for career coaches and a complete manual/workbook. It is not available as an e-book because it is in 8 1/2 by 11 inch format and includes numerous full- and two-page graphics that cannot be viewed on those device

The Enhanced Edition includes eight training videos by the co-authors Beverly Kaye and Julie Winkle Giulioni and one animation (total of 27 minutes). The opening video introduces the co-authors and big idea of the book. The closing animation helps readers spread the word digitally about helping people grow. The

seven training videos embedded in the chapters provides additional learning concepts and methods such as: Goodbye Career Ladders, Learning Beyond the Classroom, Six Proven Strategies, and Tips for Tipping the Conversation. Study after study confirms that career development is the single most powerful tool managers have for driving retention, engagement, productivity, and results. Nevertheless, it's frequently back-burnered. When asked why, managers say the number one reason is that they just don't have time—for the meetings, the forms, the administrative hoops. But there's a better way. And it's surprisingly simple: frequent short conversations with employees about their career goals and options integrated seamlessly into the normal course of business. Kaye and Giulioni identify three broad types of conversations that have the power to motivate employees more deeply than any well-

intentioned development event or process.

These conversations will increase employees' awareness of their strengths, weaknesses, and interests; point out where their organization and their industry are headed; and help them pull all of that together to design their own up-to-the-minute, personalized career paths. Help Them Grow or Watch Them Go is filled with practical tips, guidelines, and templates, as well as nearly a hundred suggested conversation questions. Illuminated with the perspectives of real managers and employees, this book proves that careers are best developed one conversation at a time.

Career Solutions for Creative People Happy About

In our modern, often volatile economy, we can no longer expect permanent or long term employment with any one employer. Today's worker has, on

average, multiple jobs and even multiple careers. Layoffs, terminations, and pink slips are so universal that they are now euphemistically called downsizing or rightsizing. But whatever the label, the process is no easier to deal with--not for the employee whose services are being terminated nor for the organization and executives who initiate the termination. Fortunately, there is a silver lining to all this turbulence, and that is that the concept of career transition is here to stay. Career transition is the process by which the terminating organization assists terminated employees with making the transition and often helps in the search for new employment. While the benefits to the employee are

apparent, what is less clear are the benefits to the company effecting the downsizing. Career transition helps displaced employees understand the business reasons for tough corporate decisions. By keeping such displaced, often disgruntled, employees focused on their own future, it shifts attention away from personal negatives like depression and greater ills like expensive lawsuits. Strategic and compassionate career transition services have therefore become part of today's corporate environment. In "#SUCCESSFUL CORPORATE LEARNING tweet Book04: Career Transition Training and Services That Work in Today's Environment" career transition expert "Barbara Safani" collaborates with Amazon best-selling author "Mitchell Levy" to show you how to make the career transition journey a little bit easier. A worthy read for any mid- or senior-level executive who is faced either directly or indirectly with the prospect of downsizing, this little volume packs a punch well above its weight. It will help you and your organization manage a difficult downsizing process smoothly, while preserving your company's reputation and treating displaced employees with dignity and respect.
