people's sustenance in favor of the single-minded pursuit of money. In *Meals Matter*, Michael Symons returns economics to its roots in the distribution of food and the labor required. Setting the table with vivid descriptions of conviviality, he offers a gastronomic rebuttal to the narrow worldview of mainstream economics. Engaging with a wide variety of thinkers—including Epicurus, Enlightenment philosophers such as Thomas Hobbes and John Locke, the gastronome Jean Anthelme Brillat-Savarin, and economic theorists from François Quesnay and Adam Smith through the neoliberals—Symons traces how we went

astray and how we can find our way back to a more caring, sustainable way of life. He finds hope for shared “table pleasure” in institutions like community gardens, street markets, and banquets and in eating fresh, local, and “slow” food. An innovative, historically based argument at the intersection of food history and social thought, *Meals Matter* challenges us to reject the economics of greed in favor of a community-based economics of sharing and gastronomic enjoyment.

Film Festivals: History, Theory, Method, Practice represents a major addition to the literature on this topic, offering an authoritative and comprehensive introduction to the area. With a combination of chapters specifically examining history, theory, method and practice, it offers a clear structure and systematic approach for the study of film festivals.	Offering a collection of essays written by an international range of established scholars, it discusses well-known film festivals in Europe, North America and Asia, but equally devotes attention to the diverse range of smaller and/or specialized events that take place around the globe. It provides essential knowledge on the origin and	development of film festivals, discusses the use of theory to study festivals, explores the methods of ethnographic and archival research, and looks closely at the professional practice of programming and film funding. Each section, moreover, is introduced by the editors, and all chapters include useful suggestions for further reading. This will be an essential

Frederick is a demon. Born in Maryland in the early 1980's, he hasn't a clue where he came from or why, but feels an irresistible desire to occupy a human body. Once inside, he finds the

previous occupants' consciousness and memories forever erased, an inevitable side effect that gives Frederick pause when switching bodies, but not so much as to truly halt his ongoing enjoyment of human lives. In various bodies, he travels the world for decade s--aimless--sampling cultures and experiencing life from the points of view of males, females, young, old, rich, poor. Now, Frederick has an urge to return to his

roots in America, explore the mystery of his origin, find someone to love, and settle down for a while. In his hometown, his mission bears fruit much faster than he expected, as person after person presents themselves, and following his impulses, he is lead directly to love, tragedy, answers, and the humanity he never knew he wanted.

In the age of

distraction, *carpe diem* is more essential than ever, and yet many of us simply don't employ it in our lives. In this thought-provoking and empowering book, cultural writer Roman Krznaric unpacks the history, philosophy, and modern-day applications of "seizing the day" and delivers a rousing call to action for anyone who wants to improve their lives--or our world. *Carpe Diem* is a far-ranging read, drawing on everything from the neuropsychology of regret to the anthropology of play, from medieval carnival rites to religious conceptions of the afterlife and early

Japanese cinema. Offering food for thought as well as inspiring takeaways, the book examines not just the contributions of great thinkers throughout history, but also reveals insights from the lives of great seize-the-day practitioners including nightclub dancers, war photographers, bored housewives, and committed revolutionaries--offering a wide range of solutions to the daunting challenge of leading a meaningful life. **In a Manner of Speaking** Yale University Press Rachel is a well-established business woman who has her head

screwed on properly. She is self-sufficient and a highly successful woman. You could say she has a pretty good life and isn't missing much, but when she meets Liz she realizes just how much she is actually missing. This story takes us behind the romance and into the lives of Rach and Liz. My hope is that through this book my writing will give you a sense that life may send you rain, it may even send you storms, but that love can endure and love can triumph.
