The downsped, high-performance, 400 HP DD15 engine is a great choice to power your custom Freightliner Cascadia, with a 1750 lb-ft rating, and greater horsepower and torque at lower RPMs. Operate in top gear longer and cruise at more efficient engine speeds with the DD15.

## I have a 2012 cascadia. The check engine light, mil and ...

I drive a 2019 Cascadia with a DD13. For the last 6 weeks, my truck has been in and out of the Freightliner dealership for check engine lights coming on and derating my engine by 10%. The code says it's the Jake brake stage 2 low. It will come on no matter if I'm driving or parked and idling overnight. Nobody can figure out what's going on.

### *EGR Quick Fix - Keep that Engine light OUT*

I have an 09 cascadia with the dd15. The yellow check engine light is on, along with another yellow engine light. One says engine, the other is just plain yellow. The truck will not let me drive it, it will move, but once you accelerate, it restricts the rpms and makes you go very, very slow. Once the rpms get above 1300 then it will take off.
