Cascadia Engine Light

I drive a 2019 Cascadia with a  
DD13. For the last 6 weeks,  
my truck has been in and out  
of the Freightliner dealership  
for check engine lights coming  
on and derating my engine by  
10%. The code says it's the  
Jake brake stage 2 low. It will  
come on no matter if I'm  
driving or parked and idling  
overnight. Nobody can figure  
out what's going on.

Cascadia Engine Light -

The downsped, high-  
performance, 400 HP DD15  
engine is a great choice to  
power your custom  
Freightliner Cascadia, with a  
1750 lb-ft rating, and greater  
horsepower and torque at  
lower RPMs. Operate in top  
gear longer and cruise at  
more efficient engine speeds  
with the DD15.

EGR Quick Fix - Keep that  
Engine light OUT

Freightliner cascadia Driver

---

Manual. ... Wait for Backup Lights three seconds before starting the engine. Backup lights activate only when the vehicle is in reverse. The SAM Cab vehicle controller automatically cycles reverse, and are designed to be used while backing up all exterior lights off and then on when the headlights are on at night.

The yellow check engine light is..says engine - JustAnswer

I have 2010 cascadia with dd15 the check engine light and the plain engine with no words is lite up. I'm getting a code of ECU 128 sid 272 fail 03 . Can you provide any info on what's going on.

Mechanic's Assistant: What's the make/model/year of your truck? Engine type? 2010 Freightliner cascadia with dd15

*The Cascadia® | Freightliner Trucks*

Hi, I have a 2012 cascadia. The check engine light, mil and flashing regen light stay on and it wont regen unless forced at shop. Sometimes it switches to stop eng. and mil light, then back again after a while. Truck still runs good and gets up to top speed. Could this just be a sensor

---

problem? Has eng 0 and diag 2 on screen.

**Cascadia check engine lights | TruckersReport.com Trucking ...**

I am driving a freightliner 2015 cascadia 125 heavy duty truck and I have three lights on now. The engine light is constantly on, the check light is blinking , and stop light is flashing. The engine will die automatically if I don't park my truck on the side of the road. When I turn the truck off and on, the engine light is still there.

*I have a 2012 cascadia.*

*The check engine light, mil and ...*

I have an 09 cascadia with the dd15. The yellow check engine light is on, along with another yellow engine light. One says engine, the other is just plain yellow. The truck will not let me drive it, it will move, but once you accelerate, it restricts the rpms and makes you go very, very slow. Once the rpms get above 1300 then it will take off.
