The 2008-2009 market meltdown and house price collapse has resetthe credit and property cycles, and smart investors are now lookingfor the upside. But Where Will the Next Bull Runs Come From, and How CanInvestors Take Advantage? The world is now facing staggering change, including exponentialperformance growth in many technologies. We can expect computersthat are smarter than people, self-driven cars and a trulyintelligent Internet. We are also facing a biotechnologicalrevolution enabling personalized medicine, fourth generationbiofuels, radical extension of human life expectancy, exponentialgrowth in farm yields, and even the recreation of extinct species.Furthermore, our energy sector is facing a complete transformationwhich will eventually make our energy supply limitless. Meanwhile,our population will grow, age and urbanize, and - largely due toemerging market growth – global purchasing power will havequadrupled by 2050. What will this mean for commodity prices, theenvironment and growth sectors such as real estate, global financeand luxury? Supertrends explains not only what will happen, but alsohow and why. Having himself run several hugely profitable fundsthrough seeking out long term opportunities and having set up andsold several award winning technology and new media companies,author Lars Tvede shows readers how to identify and profit from theinvestment opportunities of the future. If you need to be preparedfor the rest of your life, this is the book for you.
