Here is a unique book. It describes the theories and processes of repairing and adjusting the modern watch in precise and meticulous detail: a thing which has never been done so completely before in the many books on the same subject. As a text book it is a revelation. Taking nothing for granted, except the ability to read and comprehend a simple description of mechanical processes, de Carle takes his reader through every stage and every operation of watch repairing ...and to deal with them thoroughly is quite a programme - it takes 300 pages containing 24 chapters, two appendices and 553 illustrations. The fine draughtsmanship and accurate technical detail of the illustrations set a new standard. Practical Watch Repairing can justifiably claim to be the best illustrated book on practical horology yet issued, and one of the best of its kind on any subject. The publication of the book marks the beginning of a new epoch in the study of the mechanics of horology.

Throughout history, great speeches have produced great change. From inciting violence and asserting control to restoring peace and securing freedom, nothing has the raw emotional power of a speech delivered at the right moment, in the right place, with the right content, and the right delivery. 50 Speeches That Made The Modern World is a celebration of the most influential and thought-provoking speeches that have shaped the world we live in. With comprehensive, chronological coverage of speeches from the 20th and 21st centuries, taken from all corners of the globe, it covers Emmeline Pankhurst's patiently reasoned condemnation of men's failure to improve ordinary women's lives in 1908 through speeches by Vladimir Lenin, Mahatma Gandhi, David Ben-Gurion, Albert Einstein, Fidel Castro, Nikita Khrushchev, Ernesto 'Che' Guevara, Martin Luther King, Malcolm X, Nelson Mandela, Benazir Bhutto, Osama Bin Laden and Aung San Suu Kyi, right up to the most compelling oratory surrounding the 2016 US Presidential elections. Through the rallying propaganda speeches during World War II to the cautious rhetoric of the Cold War period, through challenging the status quo on issues of race, gender and politics to public addresses to the masses on the issues of AIDS and terrorism, through apologies, complaints, warmongering, scaremongering and passionate pleas, this book delivers the most important speeches of the modern era and why they still remain so significant. Each speech has an introduction explaining its setting, importance and impact as well as marginal notes filling in any background information.
