manual and the help you need for the products you own at ManualsOnline.

### **How to Program your CatGenie 120 | Cat Genie Resource Centre**

The CatGenie has a Water Sensor Guide that needs cleaning every 3 months. The Water Sensor Guide is a 4" double bar of clear plastic located under 1) the Processing Unit. Lift the Unit, 2) see the ends of the Guide, pull it out and 3) wipe its triangular tip with your fingers or a damp towel until shiny. See page 16 of the Owners Manual for full details.

### **PETNOVATIONS CATGENIE OPERATION**

*Pdf Download | ManualsLib*

The CatGenie is the revolutionary cat box that all cat owners need. It uses reusable Washable Granules that never need changing. With CatGenie, always have a clean cat box and Never Touch Cat Litter Again.

### YOUR GUIDE - CatGenie

You fix whatever the problem was, but you want to dry your granules. Easy Peasy: just select the dry cycle, and hit SCP to start the blower. without stopping the blower you can advance to the bowl test, hit SCP a few times to get the bowl turning ccw, then advance to the arm test and

extend it out into the granules.

If you have more than one cat try setting the unit to run at 8am-8pm. I have a multiple cat household (2-3 cats per unit) You can try Cat Activation on Active mode with a 30 minute delay. The 30 minute delay will give the second or third cat enough time to use

---

the box after the first cat sets off the cycle.

Do: Add a Bump in the Drain Hose. When setting up your CatGenie in the laundry room, add a small bump in the hose if you notice any extra hose laying on the floor between the unit and washing machine drain. The

extra bump can help if you are experiencing slow fill times or an error 2.

Do NOT place CatGenie near heat sources, or in a place subject to direct sunlight, excessive dust, or mechanical shock. Do NOT place anything on top of or behind the unit. This may block ventilation holes and cause malfunction. Do NOT install or store the CatGenie where it could be exposed to rain or splashing water.
