This reassuring picture book about standing up for yourself and finding security in new experiences is a great read for any first-time campers or overnight stays. Roxie is excited to be going away to Camp K-9 for a fun-filled summer, but she's scared that the other dogs will find out she's brought her blankie along in her Pooch Pouch. What if the other campers find out and call her a scaredy-cat? Even worse, a mean bully named Lucy seems determined to cause trouble. But as it turns

out, maybe some of the other campers have secrets too... Mary Ann Rodman's lighthearted but meaningful story of summer, secrets, and friendship is complemented by Nancy Hayashi's warm, humorous illustrations that are sure to comfort anyone who has ever dealt with a bully.

Martin Amis is one of the most gifted and innovative writers of our time. With *Experience*, he discloses a private life every bit as unique and fascinating as his bestselling novels. The son of the great comic novelist Kingsley Amis, Martin Amis explores his relationship with this father and writes about the various crises of Kingsley's life. He also examines the life and legacy of his cousin, Lucy Partington, who was abducted and murdered by

one of Britain ' s most notorious serial killers.

Experience also deconstructs the changing literary scene, including Amis' portraits of Saul Bellow, Salman Rushdie, Allan Bloom, Philip Larkin, and Robert Graves, among others. Not since Nabokov's *Invitation of a Beheading* has such an implausible life been recorded by such an inimitable talent. Profound, witty, and ruthlessly honest, *Experience* is a literary event. Librarian Lucy Richardson unearths a mysterious map dating back to the Civil War. But if she can't crack its code, she may end up read and buried. The Bodie Island Lighthouse Library Classic Novel Book Club is reading *Journey to the Center of the Earth* by Jules Verne while workers dig into the earth to repair the Lighthouse Library's foundations. The digging halts when Lucy pulls a

battered tin box containing a Civil War-era diary from the pit. Tucked inside is a hand-drawn map of the Outer Banks accompanied by a page written in an indecipherable code. The library is overrun by people clamoring to see the artifact. Later that night, Lucy and Connor McNeil find the body of historical society member Jeremy Hughes inside the library. Clearly Jeremy was not the only one who broke into the library--the map and the coded page are missing. Lucy's nemesis, Louise Jane McKaughnan, confesses to entering the library after closing to sneak a peek but denies seeing Jeremy--or his killer. When Lucy discovers that fellow-librarian Charlene had a past with Jeremy, she's forced to do what she vowed not to do--get involved in the case. Meanwhile, the entire library staff and community become obsessed with trying to decode the page. But when the library has a second break in, it becomes clear that someone is determined to solve that code.

By his early thirties, Paul Allen was a world-famous billionaire--and that was just the beginning. In 2007 and 2008, *Time* named Paul Allen, the cofounder of Microsoft, one of the hundred most influential people in the world. Since he made his fortune, his impact has been felt in science, technology, business, medicine, sports, music, and philanthropy. His passion, curiosity, and intellectual rigor--combined with the resources to launch and support new initiatives--have literally changed the world. In 2009 Allen discovered that he had lymphoma, lending urgency to his desire to share his story for the first time. In this classic memoir, Allen explains how he has solved problems, what he's learned from his many endeavors--both the triumphs and the

failures--and his compelling vision for the future. He reflects candidly on an extraordinary life. The book also features previously untold stories about everything from the true origins of Microsoft to Allen's role in the dawn of private space travel (with SpaceShipOne) and in discoveries at the frontiers of brain science. With honesty, humor, and insight, Allen tells the story of a life of ideas made real. *Maisy Goes Camping*

A medical mystery/fantasy/love story that delves deeply into the nature of consciousness while raising many of the ethical and existential issues facing scientists today A contemporary Frankenstein that defies expectations, this is a thrilling novel, couched in luminous, captivating prose about a journalist, Cédric Allyn-Weberson, who suffers a horrific accident, paralyzing him from the neck down. An ideal candidate for a body transplant, Cédric survives the surgery but has both physical and existential trouble with his recovery and adaptation: encountering his lover with a new body, discovering the life history of his donor, and attempting to understand the mind-body relationship as he lives it. Haddad explores the confusion and insignificance of a single consciousness before experience and identity: What is a head without a body? What or who is a lover with another's body? The gruesome transplant (detailed in a manner that highlights the author's own diligent

research and comprehension) parallels other ways humanity mutates nature globally; the novel is a provocative and timely allegory—a work of dystopian fantasy. *Secrets from Beyond the Grave* Harper Collins

The bestselling author of *The Designer* presents a sweeping story of blind faith, family allegiance and how love makes one man question everything he thought he knew. Max Wolff is a committed soldier of the Reich. So when he is sent home wounded, only to discover that his mother is sheltering two young Jewish women in their home, he is outraged. His mother's act of mercy is a gross betrayal of

everything Max stands for. He has dedicated his life to Nazism, fighting to atone for the shame of his anti-Hitler father's imprisonment. It's his duty to turn the sisters over to the Gestapo. But he hesitates, and the longer Max fails to do his duty, the harder it becomes. When Allied bombers fill the skies of Germany, Max is forced to abandon all dogma and face the brutality of war in order to defend precious lives. But what will it cost him?

Idea Man Springer NEW COVER Touring with four rockers is the thing of dreams... At least that is what people tell me. To me those four rockers are my family. They have watched over me from the time I was five years old. Protecting me from my mother and her drunken, drug addict rages. When they made it big they still watched over me. And when my monster of a mother died they took over as my guardians. In the six years since that happened I have watched over the four men that mean everything to me. I take care of them just as they once took care of me. I handle all the dirty work behind the scenes of a rockers life. It isn't always pretty. At times it

can be damn near disgusting, especially when I have to get rid of their one night stands. Ugh! Taking care of them doesn't bother me though. I mean it's not like I'm in love with one of them. That would be crazy. Falling for a rocker is NOT smart. Okay, so I'm not smart. I love my guys, and one of them kind of holds my heart in his big old rocker hand. But I'm dealing. I've been able to keep it my little secret for years now. I'm not, however, dealing with this bug that I seem to have caught. It scares the hell out of me. I hate doctors, but I'm suddenly more worried about finding out what is wrong with me than what the doctor might do to me. When I get my test results back my life will never be the same again... ***Because of language and adult situations not suitable for readers under 17***
