A Wall Street Journal Best Business Book of 2012 A Kirkus Reviews Best Book of 2012 In this revealing account of how the digital universe exploded in the aftermath of World War II, George Dyson illuminates the nature of digital computers, the lives of those who brought them into existence, and how code took over the world. In the 1940s and '50s, a small group of men and women—led by John von Neumann—gathered in Princeton, New Jersey, to begin building one of the first computers to realize Alan Turing's vision of a Universal Machine. The codes unleashed within this embryonic, 5-kilobyte universe—less memory than is allocated to displaying a single icon on a computer screen today—broke the distinction between numbers that mean things and numbers that do things, and our universe would never be the same. Turing's Cathedral is the story of how the most constructive and most destructive of twentieth-century inventions—the digital computer and the hydrogen bomb—emerged at the same time.

In the 1960s Jerry Cornelius was the coolest assassin on the Ladbrooke Grove block. By the 1970s The Condition of Muzak had won the Guardian Fiction Prize and The Final Programme was a feature film starring Jon Finch, Jenny Runacre, Hugh Griffith and Sterling Hayden. In the 1980s the world's first cyberpunk continued to inspire a generation of writers including William Gibson, Alan Moore, Neil Gaiman, and bands like the Human League. By the 1990s he was up and running towards the guns again in stories like The Spencer Inheritance, The Camus Referendum and Cheering for the Rockets, which dealt with the icons and key events of the day. At turn of the millennium, in Firing the Cathedral, he responded to the attacks on America of September 2001 and their consequences, to the realities of global warming and global terrorism, and the apocalypse had never seemed more terrifying, never been more fun. Cooler, sharper, his fingers firmly on the pulse of the twenty-first century, Jerry Cornelius was back, counting names and taking heads -- Dust cover.

St. Basil's Cathedral, also called "The Cathedral of the Protection of the Most Holy Theotokos on the Moat," or the "Temple of Saint Basil the Blessed," is an Eastern Orthodox Church in Moscow, Russia. The cathedral is a popular search on Wikipedia not only because it is a marvel of architecture, but because it serves as an important edifice for Orthodox Christians around the world. A major tourist attraction, the Cathedral gets more visitors every year than any other historical site in Moscow. Sitting on the Red Square, St. Basil's western facade faces the Kremlin, where the preserved corpse of Vladimir Lenin lies entombed for onlookers to see. Although the Red Square is typically packed with tourists, many native Russians also frequent the area, especially at the end of the work day. By sunset, most tourists will have left only to be replaced by hundreds of Russians just finishing work. At that time, surrounded by natives, the "real" Red Square experience comes alive. The colorful spires and cupolas of St. Basil become even more stunning when framed against a setting sun.

' Somerville is one of our finest gazetteers of the British countryside. He brings his formidable knowledge to bear on his personal quest to explore the cathedrals in this entrancing book ' The Spectator Christopher Somerville, author of the acclaimed The January Man, pictured cathedrals as great unmoving bastions of tradition. But as he journeys among Britian's favourites, old and new, he discovers buildings and communities that have been in constant upheaval for a thousand years. Here are stories of the monarchs and bishops who ordered the construction of these buildings, the masons whose genius brought them into being, and the peasants who worked and died on the scaffolding. We learn of rogue saints exploited by holy sinners, the pomp and prosperity that followed these ships of stone, the towns that grew up in their shadows. Meeting believers and non-believers, architects and archaeologists, the cleaner who dusts the monuments and the mason who judges stone by its taste, we delve deep into the private lives and the uncertain future of these ever-voyaging Ships of Heaven. ' Somerville paints word pictures of exquisite quality ' Church Times

" This is a gorgeous, lyrical, hilarious, important book. . . . Read this and you may find yourself instinctively beginning to heal old wounds: in yourself, in others, and just maybe in the cathedral of the wild that is our true home. " —Martha Beck, author of Finding Your Own North Star Boyd Varty had an unconventional upbringing. He grew up on Londolozzi Game Reserve in South Africa, a place where man and nature strive for balance, where perils exist alongside wonders. Founded more than eighty years ago as a hunting ground, Londolozzi was transformed into a nature reserve beginning in 1973 by Varty's father and uncle, visionaries of the restoration movement. But it wasn't just a sanctuary for the animals; it was also a place for ravaged land to flourish again and for the human spirit to be restored. When Nelson Mandela was released after twenty-seven years of imprisonment, he came to the reserve to recover. Cathedral of the Wild is Varty's memoir of his life in this exquisite and vast refuge. At Londolozzi, Varty gained the confidence that emerges from living in Africa. " We came out strong and largely unafraid of life, " he writes, " with the full knowledge of its dangers. " It was there that young Boyd and his equally adventurous sister learned to track animals, raised leopard and lion cubs, followed their larger-than-life uncle on his many adventures filming wildlife, and became one with the land. Varty survived a harrowing black mamba encounter, a debilitating bout with malaria, even a vicious crocodile attack, but his biggest challenge was a personal crisis of purpose. An intense spiritual quest takes him across the globe and back again—to reconnect with nature and " rediscover the track. " Cathedral of the Wild is a story of transformation that inspires a great appreciation for the beauty and order of the natural world. With conviction, hope, and humor, Varty makes a passionate claim for the power of the wild to restore the human spirit. Praise for Cathedral of the Wild " Extremely touching . . . a book about growth and hope. " —The New York Times " It made me cry with its hard-won truths about human and animal nature. . . . Haunting and transcendently twisted, this English-language debut from a Cuban literary star is a tale of race, magic, belief, and fate The Stuart family moves to a marginal neighborhood of Cienfuegos, a city on the southern coast of Cuba. Arturo Stuart, a charismatic, visionary preacher, discovers soon after arriving that God has given him a mission: to build a temple that surpasses any before seen in Cuba, and to make of Cienfuegos a new Jerusalem. In a neighborhood that roils with passions and conflicts, at the foot of a cathedral that rises higher day by day, there grows a generation marked by violence, cruelty, and extreme selfishness. This generation will carry these traits beyond the borders of the neighborhood, the city, and the country, unable to escape the shadow of the unfinished cathedral. Told by a chorus of narrators—including gossips, gangsters, a ghost, and a serial killer—who flirt, lie, argue, and finish one another's stories, Marcial Gala's The Black Cathedral is a darkly comic indictment of modern Cuba, gritty and realistic but laced with magic. It is a portrait of what remains when dreams of utopia have withered away.
