Education programs in social entrepreneurship helps to create and fill jobs devoted to developing the local economy, which has become a dual transfer strategy by which a virtuous circle occurs between a retrofitted educational system based on social entrepreneurship, and vocational students who are highly entrepreneurial.

The Handbook of Research on Social Entrepreneurship and Solidarity Economics focuses on practical experience and theoretical models for popularizing the concept of social entrepreneurship as a critical element of economic growth. Emphasizing the ways in which social entrepreneurship benefits developing

regions, small and medium enterprises, and low-income communities, this handbook of research is a pivotal reference source for professionals, academics, and graduate-level students in the fields of economics, business administration, sociology, education, politics, and international relations.

This accessible introduction covers the complete history and contemporary contexts of the church's involvement in Catholic social tradition, giving distinctive attention to the Bible, liturgy, the thought of Augustine and Aquinas, and recent theological developments. Bringing together

---

veteran teachers of Catholic Social Teaching who have worked together on the content, this book is designed to set social questions within the Catholic tradition and contemporary life. End-of-chapter application sections address practical concerns, such as racism in the church, charity, consumerism, and talking with neighbors and coworkers about moral issues. Discussion questions, case studies, excerpts of church documents, and suggestions for further reading enhance the book's usefulness. It will work well for students of theology and ethics, particularly Catholics but also Protestants who want to know more

about the Catholic social tradition.

Celebrated moral theologian Charles E. Curran examines and critiques Pope Benedict XVI's contribution to Catholic social teaching in this Georgetown Digital Short, available

---

exclusively in this concise digital format. In his eight-year pontificate (2005-13) Pope Benedict XVI wrote two encyclicals that are significant for Catholic social teaching: *Deus caritas est* (God Is Love) in 2005, and *Caritas in veritate* (Charity In Truth) in 2009. Curran analyzes and compares the teaching proposed in these two encyclicals, given that these two documents reflect differing approaches. He explores presuppositions found in *Caritas in veritate* within the tradition of Catholic social teaching and discusses the theological, ethical, and ecclesial methodologies of the encyclical. Examining the substance and content of *Caritas in veritate* and its relationship to Catholic social teaching, Curran focuses on its approach to the person, political and civil society, and specific issues and topics. This is the first exploration of Pope Benedict XVI's impact on Catholic social teaching. Georgetown Digital Shorts—longer than an article, shorter than a book—deliver timely works of peer-reviewed scholarship in a fast-paced, agile environment. They present new ideas and original texts that are easily and widely available to

Towards an Ethical Framework for Poverty  
reduction Rowman & Littlefield

Sociology and Catholic Social Teaching:  
Contemporary Theory and Research offers  
critical insights into a badly needed alternative  
vision to the alienation and cynicism that plague  
our political discourse. Arguing that Catholic  
social teaching stands as an important morally  
grounded framework for addressing today ' s  
pressing social problems, contributors explore  
the general principles and specific criteria  
required for both evaluating and advocating

models of social improvement. This anthology is  
meant for advanced undergraduate and graduate  
students of sociology or Catholic social thought,  
as well as scholars in these areas interested in how  
sociology and Catholic social teaching converge.

Academic disciplines perceive tranquility and a sense  
of contentment differently among themselves and  
therefore contribute to peace-building initiatives  
differently. Peace is not merely a function of  
education or a tool that produces amicable systems,  
but rather a concept that educational contributions  
can help societies progress to a more peaceful  
existence. The Handbook of Research on Promoting  
Peace Through Practice, Academia, and the Arts aims  
to provide readers with a concise overview of  
proactive positive peace models and practices to  
counter the overemphasis on merely ending wars as a  
solution. While approaching peace-building through  
multiple vantage points and academic fields such as

---

the humanities, arts, social sciences, and theology, this valuable resource promotes peace-building as a cooperative effort. This publication is a vital reference work for humanitarian workers, leaders, educators, policymakers, academicians, undergraduate and graduate-level students, and researchers.

Provides a new understanding of the relationship between Church and State in 20th-century Costa Rica. Understanding the relationship between religion and social justice in Costa Rica involves piecing together the complex interrelationships between Church and State — between priests, popes, politics, and the people. This book does just that. Dana Sawchuk chronicles the fortunes of the country's two competing forms of labour organizations during the 1980s and demonstrates how different factions within the Church came to support either the union movement or Costa

Rica's home-grown Solidarity movement.

Challenging the conventional understanding of Costa Rica as a wholly peaceful and prosperous nation, and traditional interpretations of Catholic Social Teaching, this book introduces readers to a Church largely unknown outside Costa Rica. Sawchuk has carefully analyzed material from a multitude of sources — interviews, newspapers, books, and articles, as well as official Church documents, editorials, and statements by Church representatives to provide a firmly rooted socio-economic history of the experiences of workers, and the Catholic Church's responses to workers in Costa Rica.

accentuate the response of the Church's message to the questions Catholics have about their social role and what the Church intends to teach about it. Written in consultation with the Pontifical Council for Justice and Peace, the Handbook should take its place alongside the Catechism of the Social Doctrine of the Church on the shelf of informed Catholics as works that can inform what we believe and do in the public sphere.

Michael Hornsby-Smith offers an overview of Catholic social thought particularly in recent decades. While drawing on official teaching such as papal encyclicals and the pastoral letters of bishops' conferences, he takes seriously the need for dialogue with secular thought. The 2006 book is organized in four stages. Part I outlines the variety of domestic and international injustices and seeks to offer a social analysis of the causes of these injustices. Part II offers a theological reflection on the characteristics of the

kingdom of God which Christians are urged to seek.

Part III reviews Catholic social thought in six main areas: human rights, the family and bioethical issues, economic life, social exclusion, authentic development, and war and peace. Part IV completes the cycle with a consideration of appropriate social action responses to the injustices which the author has identified and analysed.

This third, supplemental volume continues the approach of the original two volumes of the Encyclopedia of Catholic Social Thought, Social Science, and Social Policy that were published in 2007. First, the volume includes entries that explore Catholic social thought at its broadest, most theoretical level. Second, the volume includes entries that discuss recent social science research that bears on issues important to Catholic social thought. Third, the volume includes entries discussing specific issues of social policy that have become increasingly important in recent years.

Handbook is ' Catholic Education: challenges and responses ' in a number of international settings. In addition to analyzing the largest faith-based educational system worldwide, the book also critically examines contemporary issues such as church-state relations and the impact of secularization and globalization.

Cardinal Cahal Daly and the Pursuit of the Peaceable Kingdom USCCB Publishing  
With an equal emphasis on every word in the title—and with a distinctly American perspective—Himes and his distinguished associate editors and contributors, have assembled the most thorough and authoritative assessment of modern Roman Catholic social teaching to date, likely to remain the touchstone volume for decades. This culmination of many years of effort by twenty stellar scholars has produced a reference work for anyone interested in understanding or studying the key documents

that comprise the central corpus of Catholic social teaching. In addition to interrogations of the major documents, this volume provides an understanding of the biblical and philosophical foundations of Catholic social teaching, addresses the doctrinal issues that arise in such a context, and explores the social thought leading up to the "modern" era, generally accepted as beginning in 1891 with the publication of Pope Leo XIII's *Rerum Novarum*. Finally, there is a review of how Catholic social teaching has been received in the United States, and an informed look at the shortcomings and questions that future generations must address. By any standard, *Modern Catholic Social Teaching* is a remarkable work—intellectually rigorous and deeply faithful, it provides accessible and

thought-provoking insights into the heart of a belief tradition that every Catholic will find invaluable.

What is social justice? For Friedrich Hayek, it was a mirage—a meaningless, ideological, incoherent, vacuous cliché. He believed the term should be avoided, abandoned, and allowed to die a natural death. For its proponents, social justice is a catchall term that can be used to justify any progressive-sounding government program. It endures because it venerates its champions and brands its opponents as supporters of social injustice, and thus as enemies of humankind. As an ideological marker, social justice always works best when it is not too sharply defined. In *Social Justice Isn't What You Think It Is*, Michael

Novak and Paul Adams seek to clarify the true meaning of social justice and to rescue it from its ideological captors. In examining figures ranging from Antonio Rosmini, Abraham Lincoln, and Hayek, to Popes Leo XIII, John Paul II, and Francis, the authors reveal that social justice is not a synonym for “progressive” government as we have come to believe. Rather, it is a virtue rooted in Catholic social teaching and developed as an alternative to the unchecked power of the state. Almost all social workers see themselves as progressives, not conservatives. Yet many of their “best practices” aim to empower families and local communities. They stress not individual or state, but the vast social space between them. Left and right surprisingly meet. In this surprising reintroduction of its original intention, social justice represents an immensely powerful virtue for nurturing personal responsibility and building

---

the human communities that can counter the widespread surrender to an ever-growing state. Modern Catholic Social Teaching Baker Books This book identifies both the consistencies and disparities between Catholic Social Teaching and the United Nation ' s (UN) Sustainable Development Goals (SDGs). With Pope Francis ' Laudato si ' encyclical, Catholicism seems to be engaging more than ever with environmental and developmental concerns. However, there remains the question of how these theological statements will be put into practice. The ongoing involvement of the Catholic Church in social matters makes it a significant potential partner in issues around development. Therefore, with the use of the comparative method, this book brings together authors from multiple disciplines to assess how the political and legal aspects of each of the UN ' s 17 SDGs are addressed by Catholic Social Teaching. Chapters answer the question of how the Catholic Church evaluates the concept of sustainable development as defined by the

Agenda 2030 Goals, as well as assessing how and if it can contribute to shaping the contemporary concept of global development. Examining the potential level of cooperation between the international community and the Catholic Church in the implementation of the Agenda 2030 Goals, this volume will be of keen interest to scholars of Catholic Studies, Religious Studies and the Sociology of Religion, as well as Environmental Studies and Development Studies. Modern Catholic Social Teaching Springer Science & Business Media The canon for Catholic social teaching spreads to six hundred pages, yet fewer than two pages are devoted to Catholic social learning or pedagogy. In this long-needed book, Roger Bergman begins to correct that gross imbalance. He asks: How do we educate (lead out) the faith that does justice? How is commitment to social justice provoked and sustained over a lifetime? To address these questions, Bergman weaves what he has learned

---

from thirty years as a faith-that-does-justice educator with the best of current scholarship and historical authorities. He reflects on personal experience; the experience of Church leaders, lay activists, and university students; and the few words the tradition itself has to say about a pedagogy for justice. Catholic Social Learning explores the foundations of this pedagogy, demonstrates its practical applications, and illuminates why and how it is fundamental to Catholic higher education. Part I identifies personal encounters with the poor and marginalized as key to stimulating a hunger and thirst for justice. Part II presents three applications of Catholic social learning: cross-cultural immersion as illustrated by Creighton University's Semestre Dominicano program; community-based service learning; and the teaching of moral exemplars such as Dorothy Day, Rev. Martin

Luther King Jr., and Archbishop Oscar Romero. Part III then elucidates how a pedagogy for justice applies to the traditional liberal educational mission of the Catholic university, and how it can be put into action. Catholic Social Learning is both a valuable, practical resource for Christian educators and an important step forward in the development of a transformative pedagogy. A Faith Formation Guide Paulist Press This book investigates the response of the Catholic Church in Northern Ireland to the conflict in the region during the late Twentieth Century. It does so through the prism of the writings of Cardinal Cahal Daly (1917-2009), the only member of the hierarchy to serve as a bishop throughout the entire conflict. This book uses the prolific writings of Cardinal Daly to create a vision of the ' Peaceable Kingdom ' and demonstrate how Catholic social teaching has

---

been used to promote peace, justice and nonviolence. It also explores the public role of the Catholic Church in situations of violence and conflict, as well as the importance for national churches in developing a voice in the public square. Finally, the book offers a reflection on the role of Catholic social teaching in contemporary society and the ways in which the lessons of Northern Ireland can be utilised in a world where structural violence, as evidenced by austerity, and reactions to Brexit in the United Kingdom, is now the norm. This work challenges and changes the nature of the debate surrounding the role of the Catholic Church in the conflict in Northern Ireland. It will, therefore, be a key resource for scholars of Religious Studies, Catholic Theology, Religion and Violence, Peace Studies, and Twentieth Century History.
