Handbook of Research on Social Entrepreneurship and Solidarity Economics Fordham Univ Press Handbook of Catholic Social Teaching employs a question and answer format, to better accentuate the response of the Church's message to the questions Catholics have about their social role and what the Church intends to teach about it. Written in consultation with the Pontifical Council for Justice and Peace, the Handbook should take its place alongside the Catechism of the Social Doctrine of the Church on the shelf of informed Catholics as works that can inform what we believe and do in the public sphere. [Reading, Praying, Living The US Bishops' Open Wide Our Hearts](#) Catholic University of America Press + ORM The new interdisciplinary field of Christianity and economics deals with the important and difficult questions that cluster at the boundary of these disciplines,

drawing on contemporary theory and empirical findings in both fields, with roots in older discourses. This landmark volume surveys the field and advances the discussion. It deploys historical, economic, and theological analysis to search for answers.

Provides a new understanding of the relationship between Church and State in 20th-century Costa Rica. Understanding the relationship between religion and social justice in Costa Rica involves piecing together the complex interrelationships between Church and State – between priests, popes, politics, and the people. This book does just that. Dana Sawchuk chronicles the fortunes of the country's two competing forms of labour organizations during the 1980s and demonstrates how different factions within the Church came to support either the union movement or Costa Rica's home-grown Solidarity movement. Challenging the conventional understanding of Costa Rica as a wholly peaceful and prosperous nation, and traditional interpretations of Catholic Social Teaching, this

book introduces readers to a Church largely unknown outside Costa Rica. Sawchuk has carefully analyzed material from a multitude of sources – interviews, newspapers, books, and articles, as well as official Church documents, editorials, and statements by Church representatives to provide a firmly rooted socio-economic history of the experiences of workers, and the Catholic Church's responses to workers in Costa Rica.

Michael Hornsby-Smith offers an overview of Catholic social thought particularly in recent decades. While drawing on official teaching such as papal encyclicals and the pastoral letters of bishops' conferences, he takes seriously the need for dialogue with secular thought. The 2006 book is organized in four stages. Part I outlines the variety of domestic and international injustices and seeks to offer a social analysis of the causes of these injustices. Part II offers a theological reflection on the characteristics of the kingdom of God which Christians are urged to seek. Part III reviews Catholic social thought in six main areas: human rights, the family and bioethical issues, economic life, social exclusion, authentic development, and war and peace. Part IV completes the cycle with a consideration of appropriate social action responses to the injustices which the author has identified and analysed.

Academic disciplines perceive tranquility and a sense of contentment differently among themselves and therefore contribute to peace-building initiatives differently. Peace is not merely a function of education or a tool that produces amicable systems, but rather a concept that educational contributions can help societies progress to a more peaceful existence. The Handbook of Research on Promoting Peace Through Practice, Academia, and the Arts aims to provide readers with a concise overview of proactive positive peace models and practices to counter the overemphasis on merely ending wars as a solution. While approaching peace-building through multiple vantage points and academic fields such as the humanities, arts, social sciences, and theology, this valuable resource promotes peace-building as a cooperative effort. This publication is a vital reference work for humanitarian workers, leaders, educators, policymakers, academicians, undergraduate and graduate-level students, and researchers.

This book identifies both the consistencies and disparities between Catholic Social Teaching and the United Nation's (UN) Sustainable Development Goals (SDGs). With Pope Francis' *Laudato si'* encyclical, Catholicism seems to be engaging more than ever with environmental and developmental concerns. However, there remains the question of how these theological statements will be put into practice. The ongoing involvement of the Catholic Church in social matters makes it a significant potential partner in issues around development. Therefore, with the use of the comparative method, this book brings together authors from multiple disciplines to assess how the political and legal aspects of each of the UN's 17 SDGs are addressed by Catholic Social Teaching. Chapters answer the question of how the Catholic Church evaluates the concept of sustainable development as defined by the Agenda 2030 Goals, as well as assessing how and if it can contribute to shaping the contemporary concept of global

development. Examining the potential level of cooperation between the international community and the Catholic Church in the implementation of the Agenda 2030 Goals, this volume will be of keen interest to scholars of Catholic Studies, Religious Studies and the Sociology of Religion, as well as Environmental Studies and Development Studies.

Can the law promote moral values even in pluralistic societies such as the United States? Drawing upon important federal legislation such as the Americans with Disabilities Act, legal scholar and moral theologian Cathleen Kaveny argues that it can. In conversation with thinkers as diverse as Thomas Aquinas, Pope John Paul II, and Joseph Raz, she argues that the law rightly promotes the values of autonomy and solidarity. At the same time, she cautions that wise lawmakers will not enact mandates that are too far out of step with the lived moral values of the actual community. According to Kaveny, the law is best understood as a moral teacher encouraging people to act virtuously, rather than a police officer requiring them to do so. In *Law's Virtues* Kaveny expertly applies this theoretical framework to the controversial moral-legal issues of abortion, genetics, and euthanasia. In addition, she proposes a moral analysis of the act of voting, in dialogue with the election guides issued by the US bishops. Moving beyond the culture wars, this bold and provocative volume proposes a vision of the relationship of law and morality that is realistic without being relativistic and optimistic without being utopian.

**Social Thought: Implications for Social Justice and Civil Society in Nigeria** provides a theoretical and practical framework for a just vision of society. It focuses on how support for individuals and social groups in Nigeria can foster the building of their communities through the practice of social justice. Social justice will ensure the building of trust across ethnic lines, challenge corruption, encourage accountability and servant leadership, protect minority tribes from larger ones, and promote grassroots self-help tribal, communal, religious, and non-governmental associations as agents of positive social change and development. These dynamics interact within a healthy federal structure that respects its constituent parts for the common good. This volume is recommended as a graduate text for courses in theology, religious education, and social philosophy, and for all interested in promoting the common good.

The canon for Catholic social teaching spreads to six hundred pages, yet fewer than two pages are devoted to Catholic social learning or

pedagogy. In this long-needed book, Roger Bergman begins to correct that gross imbalance. He asks: How do we educate (lead out) the faith that does justice? How is commitment to social justice provoked and sustained over a lifetime? To address these questions, Bergman weaves what he has learned from thirty years as a faith-that-does-justice educator with the best of current scholarship and historical authorities. He reflects on personal experience; the experience of Church leaders, lay activists, and university students; and the few words the tradition itself has to say about a pedagogy for justice. **Catholic Social Learning** explores the foundations of this pedagogy, demonstrates its practical applications, and illuminates why and how it is fundamental to Catholic higher education. Part I identifies personal encounters with the poor and marginalized as key to stimulating a hunger and thirst for justice. Part II presents three applications of Catholic social learning: cross-cultural immersion as illustrated by Creighton University's Semestre Dominicano program; community-based service learning; and the teaching of moral exemplars such as Dorothy Day, Rev. Martin Luther King Jr., and Archbishop Oscar Romero. Part III then elucidates how a pedagogy for justice applies to the traditional liberal educational mission of the Catholic university, and how it can be put into action. **Catholic Social Learning** is both a valuable, practical resource for Christian educators and an important step forward in the development of a transformative pedagogy.

Celebrated moral theologian Charles E. Curran examines and critiques Pope Benedict XVI's contribution to Catholic social teaching in this Georgetown Digital Short, available exclusively in this concise digital format. In his eight-year pontificate (2005-13) Pope Benedict XVI wrote two encyclicals that are significant for Catholic social teaching: *Deus caritas est* (God Is Love) in 2005, and *Caritas in veritate* (Charity In Truth) in 2009. Curran analyzes and compares the teaching proposed in these two encyclicals, given that these two documents reflect differing approaches. He explores presuppositions found in *Caritas in veritate* within the tradition of Catholic social teaching and discusses the theological, ethical, and ecclesial methodologies of the encyclical.

Examining the substance and content of *Caritas in veritate* and its relationship to Catholic social teaching, Curran focuses on its approach to the person, political and civil society, and specific issues and topics. This is the first exploration of Pope Benedict XVI's impact on Catholic social teaching. Georgetown Digital Shorts—longer than an article, shorter than a book—deliver timely works of peer-reviewed scholarship in a fast-paced, agile environment. They present new ideas and original texts that are easily and widely available to students, scholars, libraries, and general readers.

What is social justice? For Friedrich Hayek, it was a mirage—a meaningless, ideological, incoherent, vacuous cliché. He believed the term should be avoided, abandoned, and allowed to die a natural death. For its proponents, social justice is a catchall term that can be used to justify any progressive-sounding government program. It endures because it venerates its champions and brands its opponents as supporters of social injustice, and thus as enemies of humankind. As an ideological marker, social justice always works best when it is not too sharply defined. In *Social Justice Isn't What You Think It Is*, Michael Novak and Paul Adams seek to clarify the true meaning of social justice and to rescue it from its ideological captors. In examining figures ranging from Antonio Rosmini, Abraham Lincoln, and Hayek, to Popes Leo XIII, John Paul II, and Francis, the authors reveal that social justice is not a synonym for “progressive” government as we have come to believe. Rather, it is a virtue rooted in Catholic social teaching and developed as an alternative to the unchecked power of the state. Almost all social workers see themselves as progressives, not conservatives. Yet many of their “best practices” aim to empower families and local communities. They stress not individual or state, but the vast social space between them.

Left and right surprisingly meet. In this surprising reintroduction of its original intention, social justice represents an immensely powerful virtue for nurturing personal responsibility and building the human communities that can counter the widespread surrender to an ever-growing state.

Educating the Faith that Does Justice SAE Education programs in social entrepreneurship helps to create and fill jobs devoted to developing the local economy, which has become a dual transfer strategy by which a virtuous circle occurs between a retrofitted educational system based on social entrepreneurship, and vocational students who are highly entrepreneurial. The Handbook of Research on Social Entrepreneurship and Solidarity Economics focuses on practical experience and theoretical models for popularizing the concept of social entrepreneurship as a critical element of economic growth. Emphasizing the ways in which social entrepreneurship benefits developing regions, small and medium enterprises, and low-income communities, this handbook of research is a pivotal reference source for professionals, academics, and graduate-level students in the fields of economics, business administration, sociology, education, politics, and international relations.

In 2018, for the first time in nearly forty years, the United States Conference of Catholic Bishops published a pastoral letter against racism. *Open Wide Our Hearts* is a call to a humble and expansive love that respects human dignity and unites us all in Christ. Now, in *Reading, Praying, Living* The US Bishops' *Open Wide Our Hearts*, Alison Benders offers a resource designed to help parishes, RCIA

programs, campus ministries, and Catholic readers unpack and grapple with this important document. Benders provides background on the social doctrine that grounds the document, describes why it's so timely, and offers a plan for studying the letter, personally or as a group. In an engaging and accessible way, she walks readers through the scriptural, theological, and moral guidance needed to form our consciences and convert our hearts. And because the work of racial healing is a journey, not an event, each section of the guide also includes questions for personal reflection and attentive discussion and prayers for spiritual renewal or reconciliation.
