Accident: an undesired event that results in loss. Most people give little thought to accidents or their prevention. Health and safety professionals face this challenge, and its associated costs and losses, both human and financial, every day. Cause, Effect, and Control of Accidental Loss with Accident Investigation Kit provides the tools you need

*The Law of Cause & Effect -
How It Controls Your Life*

This is the law of cause and

effect. Again, your thoughts are the primary causes of the conditions of your life. Of course, as described at the beginning of this post, there are going to be things outside of our control, or at least seemingly, but if we are honest on a day-to-day basis, this principle rings true.

Air Pollution - Definition, Causes, Effects And Control

There is often more than one cause of an effect. For example, you get a bad score on a test because you didn't study and you ate poorly before the test such that

your brain wasn't optimally
nourished.Cause: failure to study, poor
dietEffect: poor test result.
Pollution - Causes and Effects - How to
Control Pollution
Since industrial emissions are one of the
major causes of air pollution, the
pollutants can be controlled or treated at
the source itself to reduce its effects. For
example, if the reactions of a certain raw
material yield a pollutant, then the raw
materials can be substituted with other
less polluting materials.
Cause and Effect Diagram (Fish Bone) :
