Publications
Learning
Mathematics -
Class 9 has
been written

by Mr. M.L.
Aggarwal
(Former Head of
P.G. Department
of Mathematics,
D.A.V. College,
Jalandhar) in
accordance with
the latest term-
wise Syllabus
and Guidelines
issued by the
CBSE on
Comprehensive
and Continuous
Evaluation. The
subject matter
contained in
this book has
been explained
in a simple
language and
includes many
examples from
real life
situations.
Carefully
selected
examples
consist of
detailed step-
by-step
solutions so

that students get prepared to tackle all the problems given in the exercises. Questions in the form of Fill in the Blanks, True/False Statements and Multiple Choice Questions have been given under the heading 'Mental Maths'. In addition to normal questions, some 'Higher Order Thinking Skills (HOTS)' questions have been given to enhance the analytical thinking of the students. A 'Chapter Test' has been put in the end of each chapter which serves as the brief revision of the entire chapter. Term-wise Model Question Papers for Formative and Summative Assessments have been given at proper places. Targeting Mathematics (CCE) – 4 Vikas Publishing House A perennial bestseller by eminent mathematician G. Polya, How to Solve It will show anyone in any field how to think straight. In lucid and appealing prose, Polya reveals how the mathematical method of demonstrating a proof or finding an unknown can be of help in attacking any problem that can be "reasoned" out--from building a bridge to winning a game of anagrams. Generations of readers have relished Polya's deft--indeed, brilliant--instructions on stripping away irrelevancies and going straight to the heart of the problem.

2025-26 CTET Class VI-VIII Math & Science Solved Papers
Vikas Publishing House

Education and training systems are under escalating stress to respond to the recent skills demands created by

a swiftly changing and globalised market. Educational institutions and universities need to counter to the cycle of innovation and become accustomed with their officialdom and pedagogies to serve increasingly diverse learner profiles and advance the teaching and learning of a variety of skills for innovation. Present compilation of ideas may serve as foundation to educational institutes and educationists as key performers in the production, preservation, and dissemination of knowledge. This will definitely

facilitate Re-research and enlighten academicians for their future endeavours.

The Schoolmasters' Yearbook & Educational Directory New Delhi Publishers

Targeting Mental Maths series consists of eight workbooks for classes 1–8, based on the National Curriculum Framework 2005. The books provide highlights and hints to the role and relevance of numbers in our day-to-day life. Each topic is divided into

concepts and each concept is on one page for giving lots of practice. The series aims at helping students to seek and discover interesting latent patterns and relationships and examples taken from daily life—thus laying a sound foundation for later years.
