Study

The Commercial Motor Vehicle  
Safety Act of 1986 establishes the  
knowledge and skills required to  
ensure drivers of trucks and buses  
with air brakes are qualified  
operators. The Air Brake  
endorsement test is not required  
if your CMV does not have air  
brakes. However, if you do not  
take, or fail the air brake  
endorsement test, a restriction is  
placed on your license. It is cost-  
effective to take the air brake  
endorsement with the general  
knowledge and skills test.

Another 8 Step Method is also  
recommended for testing air  
brakes during a Skills Test for the

discs, hoses and chambers, slack  
adjusters and actuators, relay  
valves, tanks, pipes and fittings.

All drivers of Commercial Motor Vehicles (CMV 's) are required to obtain a Commercial Driver License (CDL). In order to get a CDL, you must first take and pass required knowledge and skills test. The CDL Test consists of a general test, one or more endorsement tests, and an air brakes test. The tests that you will take depend on the license classification that you are obtaining (Class A, B, or C) and the type of vehicle that you will be driving (e.g., Tanker, Double/ Triple, Passenger Bus).
