The Official Air Brake Handbook Steven Zellers

Does the identification number 60 indicate a toxic substance or a flammable solid, in the molten state at an elevated temperature? Does the identification number 1035 indicate ethane or butane? What is the difference between natural gas transmission pipelines and natural gas distribution pipelines? If you came upon an overturned truck on the highway that was leaking, would you be able to identify if it was hazardous and know what steps to take? Questions like these and more are answered in the Emergency Response Guidebook. Learn how to identify symbols for and vehicles carrying toxic, flammable, explosive, radioactive, or otherwise harmful substances and how to respond once an incident involving those substances has been identified. Always be prepared in situations that are unfamiliar and dangerous and know how to rectify them. Keeping this guide around at all times will ensure that, if you were to come upon a transportation situation involving hazardous substances or dangerous goods, you will be able to help keep others and yourself out of danger. With color-coded pages for quick and easy reference, this is the official manual used by first responders in the United States and Canada for transportation incidents involving dangerous goods or hazardous materials.

[Emergency Response Guidebook](#) CDL Digest

CDL Test Dynamic Prep workbook is intended to help you be more successful on a real CDL written test. If you like to study the test questions with right answers then this product is for you.

The information on this book has organized layout included, so you do not have to figure out the approach to learning material on your own, in other words how to start and where to end. This

has already been done for you, so relax; learning doesn't have to be painful! What is Class A?

Class A- applies to any combination of vehicles with a gross combination weight rating (GCWR)

of 26,001 or more pounds, providing the gross vehicle weight rating of the vehicle being towed is

in excess of 10,000 pounds. To obtain the CDL permit class A applicants required to pass the

written Knowledge Test as well as Air Brakes and Combination vehicles endorsements General

Knowledge — is a written test (sections 2-4 of your state CDL manual) that covers all of the

others in a little detail. It's just to get a basic idea of what the kind of vehicles you may be driving

and what different rules you have to follow depending on the vehicle. Air Brakes — is a written

test (section 5 of your state CDL manual) that deals strictly with the braking system on heavy

vehicles you'll be driving. It informs you on the lack of air pressure in the system during normal

driving, which is referred to as brake lag distance. It also deals with the drivers perception

distance, reaction distance, which do effect the time it will take to stop loaded vehicle, and what

will happen in a skid. Combination vehicles — is commonly associated with Class A vehicle. This

endorsement allows you to pull a trailer behind a commercial vehicle. What you get: CDL general knowledge test (105 questions/answers organized into three smart practice tests with detailed prep descriptions.) CDL air brakes test (30 questions/answers organized into three smart practice tests with detailed prep descriptions.) CDL combination vehicles test (33 questions/answers organized into three smart practice tests with detailed prep descriptions.) CDL Test Dynamic Prep is good for all 50 states
