How Celebrity Narcissism Is Seducing America Penguin

Beginning with the premise that the biopic is a form of adaptation and an example of intermediality, this collection examines the multiplicity of 'source texts' and the convergence of different media in this genre, alongside the concurrent issues of fidelity and authenticity that accompany this form. The contributors focus on big and small screen biopics of British celebrities from the late twentieth and twenty-first centuries, attending to their myth-making and myth-breaking potential. Related topics are the contemporary British biopic's participation in the production and consumption of celebrated lives, and the biopic's generic fluidity and hybridity as evidenced in its relationship to such forms as the bio-docudrama. Offering case studies of film biographies of literary and cultural icons, including Elizabeth I, Elizabeth II, Diana Princess of Wales, John Lennon, Shakespeare, Jane Austen, Beau Brummel, Carrington and Beatrix Potter, the essays address how British identity and heritage are interrogated in the (re)telling and showing of these lives, and how the reimagining of famous lives for the screen is influenced by recent processes of manufacturing celebrity. Trieste Publishing has a massive catalogue of classic book titles. Our aim is to provide readers with the highest quality reproductions of fiction and non-fiction literature that has stood the test of time. The many thousands of books in our collection have been sourced from libraries and private collections around the world. The titles that Trieste Publishing has chosen to be part of the collection have been scanned to simulate the original. Our readers see the books the same way that their first readers did decades or a hundred or more years ago. Books from that period are often spoiled by imperfections that did not exist in the original. Imperfections could be in the form of blurred text, photographs, or missing pages. It is highly unlikely that this would occur with one of our books. Our extensive quality control ensures that the readers of Trieste Publishing's books will be delighted with their purchase. Our staff has thoroughly reviewed every page of all the books in the collection, repairing, or if necessary, rejecting titles that are not of the highest quality. This process ensures that the reader of one of Trieste Publishing's titles receives a volume that faithfully reproduces the original, and to the maximum degree possible, gives them the experience of owning the original work. We pride ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality, but also providing value to every one of our readers. Generally, Trieste books are purchased singly - on demand, however they may also be purchased in bulk. Readers interested in bulk purchases are invited to contact us directly to enquire about our tailored bulk rates.

Inferno: Special Illustrated Edition (Enhanced) Trieste Publishing Reality TV. Celebutantes. YouTube. Sex Tapes. Gossip Blogs. Drunk Driving. Tabloids. Drug Overdoses. Is this entertainment? Why do we keep watching?

What does it mean for our kids? In the last decade, the face of entertainment has changed radically—and dangerously, as addiction specialist Dr. Drew Pinsky and business and entertainment expert Dr. S. Mark Young argue in this eye-opening new book. The soap opera of celebrity behavior we all consume on a daily basis—stories of stars treating rehab like vacation, brazen displays of abusive and self-destructive "diva" antics on TV, shocking sexual imagery in prime time and online, and a constant parade of stars crashing and burning—attracts a huge and hungry audience. As Pinsky and Young show in *The Mirror Effect*, however, such behavior actually points to a wide-ranging psychological dysfunction among celebrities that may be spreading to the culture at large: the condition known as narcissism. The host of VH1's *Celebrity Rehab* with Dr. Drew and of the long-running radio show *Loveline*, Pinsky recently teamed with Young to conduct the first-ever study of narcissism among celebrities. In the process, they discovered that a high proportion of stars suffer from traits associated with clinical narcissism—including vanity, exhibitionism, entitlement, exploitativeness, self-sufficiency, authority, and superiority. Now, in *The Mirror Effect*, they explore how these stars, and the media, are modeling such behavior for public consumption—and how the rest of us, especially young people, are mirroring these dangerous traits in our own behavior. Looking at phenomena as diverse as tabloid exploitation ("Stars . . . they're just like us!"), reality-TV train wrecks (from *The Anna Nicole Show* to *My Super Sweet 16* to *Bad Girls Club*), gossip websites (TMZ, PerezHilton, Gawker), and the ever-evolving circle of pop divas known as celebutantes (or, more cruelly, celebutards), *The Mirror Effect* reveals how figures like Britney and Paris and Lindsay and Amy Winehouse—and their media enablers—have changed what we consider "normal" behavior. It traces the causes of disturbing celebrity antics to their roots in self-hatred and ultimately in childhood disconnection or trauma. And it explores how YouTube, online social networks, and personal blogs offer the temptations and dangers of instant celebrity to the most vulnerable among us. Informed and provocative, with the warm and empathetic perspective that has won Dr. Drew Pinsky legions of fans, *The Mirror Effect* raises important questions about our changing culture—and provides insights for parents, young people, and anyone who wonders what celebrity culture is doing to America.

This volume explores the multiple connections between the two most canonical authors in English, Jane Austen and William Shakespeare. The collection reflects on the historical, literary, critical and filmic links between the authors and their fates. Considering the implications of the popular cult of Austen and Shakespeare, the essays are interdisciplinary and comparative: ranging from Austen’s and Shakespeare’s biographies to their presence in the modern vampire saga *Twilight*, passing by Shakespearean echoes in Austen’s novels and the authors’ afterlives on the improv stage, in wartime cinema, modern biopics and crime fiction. The volume concludes with an account of the Exhibition “Will & Jane” at the Folger Shakespeare Library, which literally brought the two authors together in the autumn of 2016. Collectively, the essays mark and celebrate what we have called the long-standing “love affair” between William Shakespeare and Jane Austen—over 200 years and counting.

This collection of forty new essays, written by the leading scholars in adaptation studies and distinguished contributors from outside the field, is the most comprehensive volume on adaptation ever published. Written to appeal alike to specialists in adaptation, scholars in allied fields, and general readers, it hearkens back to the foundations of adaptation studies a century and more ago, surveys its ferment of activity over the past twenty years, and looks forward to the future. It considers the very different problems in adapting the classics, from the Bible to *Frankenstein* to Philip Roth, and the commons, from online mashups and remixes to adult movies. It surveys a dizzying range of adaptations around the world, from Latin American telenovelas to Czech cinema, from Hong Kong comics to Classics Illustrated, from Bollywood to zombies, and explores the ways media as different as radio, opera, popular song, and videogames have handled adaptation. Going still further, it examines the relations between adaptation and such intertextual practices as translation, illustration, prequels, sequels, remakes, intermediality, and transmediality. The volume's contributors consider the similarities and differences between adaptation and history, adaptation and performance, adaptation and revision, and

textual and biological adaptation, casting an appreciative but critical eye on the theory and practice of adaptation scholars--and, occasionally, each other. The Oxford Handbook of Adaptation Studies offers specific suggestions for how to read, teach, create, and write about adaptations in order to prepare for a world in which adaptation, already ubiquitous, is likely to become ever more important.

How will artificial intelligence change our world within twenty years? "This inspired collaboration between a pioneering technologist and a visionary writer of science fiction offers bold and urgent insights."--Yann LeCun, winner of the Turing Award; chief AI scientist, Facebook "Amazingly entertaining . . . Lee and Chen take us on an immersive trip through the future. . . . Eye-opening."--Mark Cuban AI will be the defining development of the twenty-first century. Within two decades, aspects of daily human life will be unrecognizable. AI will generate unprecedented wealth, revolutionize medicine and education through human-machine symbiosis, and create brand-new forms of communication and entertainment. In liberating us from routine work, however, AI will also challenge the organizing principles of our economic and social order. Meanwhile, AI will bring new risks in the form of autonomous weapons and smart technology that inherits human bias. AI is at a tipping point, and people need to wake up--both to AI's radiant pathways and its existential perils for life as we know it. In this provocative, utterly original work, Kai-Fu Lee, the former president of Google China and bestselling author of AI Superpowers, teams up with celebrated novelist Chen Qiufan to imagine our world in 2041 and how it will be shaped by AI. In ten gripping short stories, they introduce readers to an array of eye-opening 2041 settings, such as: • In San Francisco, the "job reallocation" industry emerges as deep learning AI causes widespread job displacement • In Tokyo, a music fan is swept up in an immersive form of celebrity worship based on virtual reality and mixed reality • In Mumbai, a teenage girl rebels when AI's crunching of big data gets in the way of romance • In Seoul, virtual companions with perfected natural language processing (NLP) skills offer orphaned twins new ways to connect • In Munich, a rogue scientist draws on quantum computing, computer vision and other AI technologies in a revenge plot that imperils the world By gazing toward a not-so-distant horizon, AI 2041 offers urgent insights into our collective future--while reminding readers that, ultimately, humankind remains the author of its destiny.

Bringing together the latest thinking on both celebrity brands and celebrity culture from academics specialising in the field of marketing, this book explores a range of insightful contexts in order to add vigour and vitality to our understanding of the connections between celebrities, markets and culture. It unpacks the identity theoretics which have their origins in the turn to celebrity culture and the spectacle and glamour of mass-media practices. In doing so, the contributors hint at new forms of individuation where the line between the virtual and the actual is blurred, and where images of celebrities construct and deconstruct themselves. This book was originally published as a special issue of the Journal of Marketing Management.
