Welcome to this course on  
mobile cell phone repair and  
maintenance. A mobile cell  
phone is a hand held mobile  
device that can perform several  
communication functions.

Mobile technology has become  
one of the fastest growing  
technologies in the world.

Today people use mobile  
phones to stay in touch with  
friends and family, to share  
stories and photographs in  
social media, and to carry out  
financial transactions. Indeed,  
according to a World Bank  
policy research paper of 2012,  
93% of Kenyans owned a  
mobile phone by the end of  
2011. This widespread  
ownership and use of mobile  
phones has created a need for  
professionals who can repair  
and service mobile phones. This  
course has been developed to  
address that need. The course

targets people who would like to  
start and run a mobile repair and  
servicing business. By the end of  
this course you should be able to  
disassemble and assemble a  
mobile phone, diagnose the  
problem, service and repair a  
mobile phone with the help of  
proper tools and instruments.  
This course is provided through  
distance learning and we trust  
that you will find the material  
useful both for studying and as  
future reference. We welcome  
your feedback on any issue  
relating to this course and wish  
you all the best. Happy  
Learning! Learning Outcomes  
Upon completion of this course  
you will be able to: Identify  
different types of mobile cell  
phones Recognise potential  
hazards in the repair of mobile  
cell phones Identify the parts of  
a mobile cell phone Use the  
correct hardware tools to repair  
mobile cell phones Assembly  
and disassembly a mobile cell  
phone Identify mobile cell  
phone faults and solve them.
