The accounting cycle is best learned by doing. Thus, the goal of this accounting simulation is to provide the student with a hands-on approach to learning the accounting cycle—from analyzing and journalizing transactions and events to financial statement preparation and end-of-period closing. If completed manually, this simulation may take 10 - 14 hours to complete. Alternatively, the student may use computerized accounting packages such as Simply Accounting by Sage, QuickBooks®, MYOB®, etc.

The text and images in this book are in grayscale. A hardback color version is available. Search for ISBN 9781680922929. Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.
