From the New York Times – bestselling author of A Dark-Adapted Eye: A unique psychological thriller about a gentle young man tempted to kill for love. Philip Wardman is disgusted by murder. He cannot tolerate violent films or the local news, and when his friends discuss such things he often leaves the room. At his sister ' s wedding, Philip becomes infatuated with a strange, silver-haired woman named Senta Pelham. They sleep together after the reception, and Philip finds himself falling headfirst into obsessive, all-consuming love. He wants to marry Senta and live an ordinary life—but before they can, she has a murderous idea. To prove the unconventionality of their love, Senta proposes that each of them commit a murder. Shocked by the idea, but unable to resist his beloved, Philip is drawn into a maze of violence and deceit—and is horrified to find that he feels quite at home. “ Subdued tones, stultifying atmosphere, and omniscient narration mark this telling depiction of mutual psychological obsession, ” writes Library Journal. Given the substantial impact of feminism on children ’ s literature and culture during the last quarter century, it comes as no surprise that gender studies have focused predominantly on

issues of female representation. The question of how the same patriarchal ideology structured representations of male bodies and behaviors was until very recently a marginal discussion. Now that masculinity has emerged as an overt theme in children ’ s literature and film, critical consideration of the subject is timely, if not long overdue. *Ways of Being Male* addresses this new concern in an unprecedented collection of essays examining how contemporary debates about masculinity are reflected in fiction and film for young adults. An outstanding team of scholars elucidates the ways in which different versions of male identity are constructed and presented to young audiences. The contributors, drawn from a variety of academic disciplines, employ international discourses in literary criticism, feminism, social sciences, film theory, psychoanalytic criticism, and queer theory in their wide-ranging exploration of male representation. With its illuminating array of perspectives, this pioneering survey brings a long neglected subject into sharp focus.

Is it possible that consumers exploit advertising even more so than advertising exploits and influences our culture? Author Jib Fowles argues that consumers look to advertising to provide them with images that can assist them in negotiating the personal dilemmas of advanced industrial life. Advertising and Popular Culture is the first comprehensive text to provide a balanced analysis of advertising and its companion, the popular culture, conveyed through the mass media. Reflecting current theories, this thoughtful critique uses excerpts from advertising campaigns to illustrate how modern advertising both draws from and contributes to popular culture. Fowles traces the role of advertising in our culture from its evolution as part of the culture of mass consumption in the late 19th century, the development of advertising agencies, and the creation of a consumer culture to an exploration of the major themes of American advertising. Advertising and Popular Culture represents a fresh and fully elaborated conceptualization of the services that advertising and popular culture provide. This text will be a vital tool in departments and schools of advertising, journalism, and communication where increasing emphasis is being placed on studying the cultural

significance of advertising.
