From one of America's

most popular short story

writers and an Academy

Award nominee: the

O. Henry Award – winning

tale that inspired the

movie *The Hunt*. A

subject of mysterious

rumors and superstition,

the deserted

Caribbean Island was shrouded in an air of peril. To

Sanger Rainsford, who

fell off a yacht and washed up

on its shores, the abandoned

isle was a welcome

paradise. But unknown to the

big-game hunter, a

predator lurked in its lush

jungles—one more

dangerous than any he had

ever encountered: a

human. First published in

1924, this suspenseful

tale “has inspired serial

killers, films and stirred

controversy in schools. A

century on, the story continues

to thrill” (*The Telegraph*).

“ [A] tense, relentless story

of man-against-man adventure,

in which the hunter Sanger

Rainsford learns, at the

hands of General Zaroff,

what it means to be hunted. ”

This brisk retelling of *Le Morte D'Arthur* highlights the

narrative drive, humor, and poignancy of Sir Thomas Malory's original while updating his fifteenth-century English and selectively pruning over-elaborate passages that can try the patience of modern readers. The result is an adaptation that readers can enjoy as a fresh approach to Malory's sprawling masterpiece. The book's most famous episodes--the sword in the stone, the cataclysmic final battle--are all here, while lesser-known key episodes stand forth with new brightness and clarity. The text is accompanied by an up-to-date bibliography, including websites and video resources, and a descriptive index

keyed--like the retelling itself--to the book and chapter divisions of William Caxton's first printed edition of 1485.

With almost 5 million copies sold 60 years after its

original publication, generations of readers have now journeyed with Milo to the Lands Beyond in this beloved classic. Enriched by Jules Feiffer's splendid illustrations, the wit, wisdom, and wordplay of Norton Juster's offbeat fantasy are as beguiling as ever.

"Comes up bright and new every time I read it . . . it will continue to charm and delight for a very long time yet. And teach us some wisdom, too."

--Phillip Pullman

For Milo, everything's a bore. When a tollbooth mysteriously appears in his room, he drives through only because he's got nothing better to do. But on the other side, things seem different. Milo visits the Island of Conclusions (you get there by jumping), learns about time from a ticking watchdog named Tock, and even embarks on a quest to rescue Rhyme and Reason. Somewhere along the way, Milo realizes something astonishing. Life is far from dull. In fact, it's exciting beyond his wildest dreams!

The Newbery Award-winning author of *Up a Road Slowly* presents the unforgettable story of Jethro Creighton—a brave boy who comes of age during the turbulent years of the Civil War. In 1861, America is on the cusp of war, and young Jethro Creighton is just nine-years-old. His brother, Tom, and his cousin, Eb, are both of fighting age. As Jethro's family is pulled into the conflict between the North and the South, loyalties are divided, dreams are threatened, and their bonds are put to the test in this heart-wrenching, coming-of-age story.

"Drawing from family records and from stories told by her grandfather, the author has, in an uncommonly fine narrative, created living characters and

vividly reconstructed a crucial period of history. ” —Booklist

Algebra: structure and method: book 1 McDougal Littell/Houghton Mifflin "Prealgebra is designed to meet scope and sequence requirements for a one-semester prealgebra course. The text introduces the fundamental concepts of algebra while addressing the needs of students with diverse backgrounds and learning styles. Each topic builds upon previously developed material to demonstrate the cohesiveness and structure of mathematics. Prealgebra follows a nontraditional approach in its presentation of content. The beginning, in particular, is presented as a sequence of small

steps so that students gain confidence in their ability to succeed in the course. The order of topics was carefully planned to emphasize the logical progression throughout the course and to facilitate a thorough understanding of each concept. As new ideas are presented, they are explicitly related to previous topics."--BC Campus website. A Wrinkle in Time is the winner of the 1963 Newbery Medal. It was a dark and stormy night—Meg Murry, her small brother Charles Wallace, and her mother had come down to the kitchen for a midnight snack when they were upset by the arrival of a most disturbing stranger. "Wild nights are my glory," the unearthly stranger told them. "I

just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. A Wrinkle in Time, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg, Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most popular boys in high school). They are in search of Meg's father, a scientist who disappeared while engaged in secret work for the government on

the tesseract problem. The Phantom Tollbooth Yearling
