The JavaScript Anthology Marvel Entertainment "The Pro Tours' Hottest Coach" (Golf Digest) reveals the secrets that helped Phil Mickelson win the 2010 Masters and can utterly transform every

player's game. When a resurgent Phil Mickelson won the Tour Championship in September 2009, he was quick to credit a series of simple putting lessons from veteran golf champion and instructor Dave Stockton. As a top coach, Stockton has taught a long list of pro players-including Annika Sorenstam, Yani Tseng (winner of four LPGA tournaments), Adam Scott (Texas Open champion), Hunter Mahan (Phoenix Open champion), and Morgan Pressel (World Ladies Championship of Japan winner)-the putting strategies that finessed their game. Stockton's breakthrough concept is that every player has their own Signature Stroke, which is unconscious. Good putting comes from the mind, Stockton says, not from a series of stiff mechanical positions. With visualization, the right frame of mind, an efficient pre-putt routine, and connection to the individual internal stroke signature, any player can make far more putts. Putting has always been taught as an offshoot to the full swing, when in reality it is far different- almost a different game. Unconscious Putting will help players get out of the rigid, mechanical, overthinking trap. In Unconscious Putting, Stockton shows how players at every handicap level-from pros to weekend golfers-can putt effortlessly and with confidence by integrating a new mental approach with a few simple physical routines that will keep them locked on target. Readers will also gain invaluable advice on reading greens and equipment. Illustrated throughout and filled with anecdotes about how Stockton's lessons have helped today's leading players, Unconscious Putting is a must-have golf book and a category classic-in-the-making.

An all-encompassing guide to skeptical thinking from podcast host and academic neurologist at Yale University School of Medicine Steven Novella and his SGU co-hosts, which Richard Wiseman calls "the perfect primer for anyone who wants to separate fact from fiction." It is intimidating to realize that

we live in a world overflowing with misinformation, bias, myths, deception, and flawed knowledge. There really are no ultimate authority figures--no one has the secret, and there is no place to look up the definitive answers to our questions (not even Google). Luckily, *The Skeptic's Guide to the Universe* is your map through this maze of modern life. Here Dr. Steven Novella--along with Bob Novella, Cara Santa Maria, Jay Novella, and Evan Bernstein--will explain the tenets of skeptical thinking and debunk some of the biggest scientific myths, fallacies, and conspiracy theories--from anti-vaccines to homeopathy, UFO sightings to N- rays. You'll learn the difference between science and pseudoscience, essential critical thinking skills, ways to discuss conspiracy theories with that crazy co-worker of yours, and how to combat sloppy reasoning, bad arguments, and superstitious thinking. So are you ready to join them on an epic scientific quest, one that has taken us from huddling in dark caves to setting foot on the moon? (Yes, we really did that.) **DON'T PANIC!** With *The Skeptic's Guide to the Universe*, we can do this together.

"Thorough, informative, and enlightening, *The Skeptic's Guide to the Universe* inoculates you against the frailties and shortcomings of human cognition. If this book does not become required reading for us all, we may well see modern civilization unravel before our eyes." -- Neil deGrasse Tyson "In this age of real and fake information, your ability to reason, to think in scientifically skeptical fashion, is the most important skill you can have. Read

The Skeptics' Guide Universe; get better at reasoning. And if this claim about the importance of reason is wrong, The Skeptics' Guide will help you figure that out, too." -- Bill Nye

"Bevy knows what's what, and she is the kind of woman you want in your corner. If you don't believe me . . . buy the book." —Whoopi Goldberg "Funny, wise, well-experienced, empathetic, colorful—Bevy brings the spirit of humanity wherever she goes." —Pharrell Williams From the host of the fabulous and popular show Bevelations on SiriusXM's Radio Andy channel, Bevy Smith's irreverent and inspiring memoir about learning to live a big, authentic, and unapologetic life—and how you can, too Bevy Smith was living what seemed like a glamorous dream as a fashion advertising executive, blazing a lucrative career for herself in the whitewashed magazine world. She jetsetted to Europe for fashion shows, dined and danced at every hot spot, and enjoyed a mighty roster of lovers. So it came as quite a shock to Bevy when one day, after arriving at her luxury hotel in Milan, she collapsed on the Frette bedsheets and sobbed. Years of rolling with the in-crowd had taken its toll. Her satisfaction with work and life had hit rock bottom. But Bevy could not be defeated, and within minutes (okay, days) she grabbed a notepad and started realizing a truer path—one built on self-reflection and, ultimately, clarity. She figured out how to redirect her life toward meaningful creativity and freedom. In her signature lively and infectious voice (there's no one like Bevy!), Bevelations candidly shares how she reclaimed her life's course and shows how we too can manifest our most bodacious dreams. From repossessing her bold childhood nature to becoming her own brand to envisioning her life's next great destination (which will feature natural hair, important charitable giving, and a midcentury house overlooking the Pacific Ocean), Bevy invites readers along on the route of her personal transformation to reveal

how each of us can live our best lives with honesty, joy, and, when we're in the mood, a killer pair of shoes.

As one of America's leading geriatric psychiatrists, Dr. Marc Agronin sees both the sickest and the healthiest of seniors. Many authors can talk about aging from their particular vantage points, but Dr. Agronin is on the front lines as he counsels and treats

elderly individuals and their loved ones on a daily basis. The latest scientific research and Dr. Agronin's first-hand experience are brilliantly distilled in *The End of Old Age*--a call to no longer see aging as an implacable enemy and to start seeing it as a developmental force for enhancing well-being, meaning, and longevity. Throughout *The End of Old Age*, the focus is squarely on "So what does this mean for me and my family?" In the final part of the book, Dr. Agronin provides simple but revealing charts that you can fill out to identify, develop, and optimize your unique age-given strengths. You will find it handy on your travels, whether at home or in some other state, and is up to date. Republican strategist reframe the discussion of the "Trump voter" to answer the question, What's next? **NAMED ONE OF THE BEST BOOKS OF THE YEAR BY FOREIGN AFFAIRS**

- "Unlike most retellings of the 2016 election, *The Great Revolt* provides a cohesive, non-wild-eyed argument about where the Republican Party could be headed."—The Atlantic Political experts were wrong about the 2016 election and they continue to blow it, predicting the coming demise of the president without pausing to consider the durability of the winds that swept him into office. Salena Zito and Brad Todd have traveled over 27,000 miles of country roads to interview more than three hundred Trump voters in ten swing counties. What emerges is a portrait of a group of citizens who span job descriptions, income brackets, education levels, and party allegiances, united by their desire to be part of a movement larger than themselves. They want to put pragmatism before ideology and localism before globalism, and demand the respect they deserve from Washington. The 2016 election signaled a realignment in American politics that will outlast any one president. Zito and Todd reframe the discussion of the "Trump voter" to answer the question, What's next?

Howard Stern Comes Again Grand Central Publishing

A deeply personal call to action for women of color to find power from within and to join together in community, advocating for a new corporate environment where we all belong—and are accepted—on our own terms. Women of color comprise one of the fastest-growing segments in the corporate workforce, yet often we are

underrepresented—among the first, few, or only ones in a department or company. For too long, corporate structures, social zeitgeist, and cultural conditioning have left us feeling exhausted and downtrodden, believing that in order to “fit in” and be successful, we must hide or change who we are. As a former senior partner at a large global services firm, Deepa Purushothaman experienced these feelings of isolation and burnout. She met with hundreds of other women of color across industries and cultural backgrounds, eager to hear about their unique and shared experiences. In doing so, she has come to understand our collective setbacks—and the path forward in achieving our goals. Business must evolve—and women of color have the potential to lead that transformation. We must begin by pushing back against toxic messaging—including the things we tell ourselves—while embracing the valuable cultural viewpoints and experiences that give us unique perspectives at work. By fully realizing our own strengths, we can build collective power and use it to confront microaggressions, outdated norms, and workplace misconceptions; create cultures where belonging is never conditional; and rework corporations to be genuinely inclusive to all. The First, the Few, the Only is a road map for us to make a profound impact within and outside our organizations while ensuring that our words are heard, our lived experiences are respected, and our contributions are finally valued.

Glitter Up the Dark Flatiron Books
New York Times bestselling author, superstar comedian, and Hollywood box office star Kevin Hart turns his immense talent to the written word by writing some words. Some of those words include: the, a, for, above, and even even. Put them together and you have a “hilarious but also heartfelt” (Elle) memoir on survival, success, and the importance of believing in yourself. The question you’re probably asking yourself right now is: What does Kevin Hart have that a book also has? According to the three people who have seen Kevin Hart and a book in the same room, the answer is clear: A book is compact. Kevin Hart is compact. A book has a spine that holds it together. Kevin Hart has a spine that holds him together. A book has a beginning. Kevin Hart’s life uniquely qualifies him to write this book by also having a beginning. It begins in North Philadelphia. He was born an accident, unwanted by his parents. His father was a drug addict who was in and out of jail. His brother was a crack dealer and petty thief. And his mother was overwhelmingly strict, beating him with belts, frying pans, and his own toys. The odds, in short, were stacked against our young hero. But Kevin Hart, like Ernest Hemingway, J.K. Rowling, and Chocolate Droppa before him, was able to defy the odds and turn it around. In his literary debut, he takes us on a journey through what his life was, what it is today, and how he’s overcome each challenge to become the man he is today. And that man happens to be the biggest comedian in the world, with tours that sell out football stadiums and films that have collectively grossed over \$3.5 billion. He achieved this not just through hard work, determination, and talent. “Hart is an incredibly magnetic storyteller, on the page as he is onstage, and that’s what shines through [in this] genial, entertaining guide to a life in comedy” (Kirkus Reviews).

A legendary record producer and performer takes readers on an alphabetical journey of insights into the music of the Beatles and individual reminiscences of John, Paul, George, and Ringo. Peter Asher met the Beatles in the spring of 1963, the start of a lifelong association with the band and its members. He had a front-row seat as they elevated pop music into an art form, and he was present at the creation of some of the most iconic music of our times. Asher is also a talented musician in his own right, with a great ear for what was new and fresh. Once, when Paul McCartney wrote a song that John Lennon didn't think was right for the Beatles, Asher asked if he could record it. "A World Without Love" became a global No. 1 hit for his duo, Peter & Gordon. A few years later Asher was asked by Paul McCartney to help start Apple Records; the first artist Asher discovered and signed up was a young American singer-songwriter named James Taylor. Before long he would be not only managing and producing Taylor but also (having left Apple and moved to Los Angeles) working with Linda Ronstadt, Neil Diamond, Robin Williams, Joni Mitchell, and Cher, among others. The Beatles from A to Zed grows out of his popular radio program "From Me to You" on SiriusXM's The Beatles Channel, where he shares memories and insights about the Fab Four and their music. Here he weaves his reflections into a whimsical

alphabetical journey that focuses not only on songs whose titles start with each letter, but also on recurrent themes in the Beatles' music, the instruments they played, the innovations they pioneered, the artists who influenced them, the key people in their lives, and the cultural events of the time. Few can match Peter Asher for his fresh and personal perspective on the Beatles. And no one is a more congenial and entertaining guide to their music.
