A special fiftieth anniversary edition of Kurt Vonnegut's masterpiece, "a desperate, painfully honest attempt to confront the monstrous crimes of the twentieth century" (Time), featuring a new introduction by Kevin Powers, author of the National Book Award finalist *The Yellow Birds* Selected by the Modern Library as one of the 100 best novels of all time *Slaughterhouse-Five*, an American classic, is one of the world's great antiwar books. Centering on the infamous World War II firebombing of Dresden, the novel is the result of what Kurt Vonnegut described as a twenty-three-year struggle to write a book about what he had witnessed as an American prisoner of war. It combines historical fiction, science fiction, autobiography, and satire in an account of the life of Billy Pilgrim, a barber's son turned draftee turned optometrist turned alien abductee. As Vonnegut had, Billy experiences the destruction of Dresden as a POW. Unlike Vonnegut, he experiences time travel, or coming "unstuck in time." An instant bestseller, *Slaughterhouse-Five* made Kurt Vonnegut a cult hero in American literature, a reputation that only strengthened over time, despite his being banned and censored by some libraries and schools for content and language. But it was precisely those elements of Vonnegut's writing—the political edginess, the genre-bending inventiveness, the frank violence, the transgressive wit—that have inspired generations of readers not just to look differently at the world around them but to find the confidence to say something about it. Authors as wide-ranging as Norman Mailer, John Irving, Michael Crichton, Tim O'Brien, Margaret Atwood, Elizabeth Strout, David Sedaris, Jennifer Egan, and J. K. Rowling have all found inspiration in Vonnegut's words. Jonathan Safran Foer has described Vonnegut as "the kind of writer who made people—young people especially—want to write." George Saunders has declared Vonnegut to be "the great, urgent, passionate American writer of our century, who offers us . . . a model of the kind of compassionate thinking that might yet save us from ourselves." Fifty years after its initial publication at the height of the Vietnam War, Vonnegut's portrayal of political disillusionment, PTSD, and postwar anxiety feels as relevant, darkly humorous, and profoundly affecting as ever, an enduring beacon through our own era's uncertainties. "Poignant and hilarious, threaded with compassion and, behind everything, the cataract of a thundering moral statement."—The Boston Globe

In 1687 in Connecticut, Kit Tyler, feeling out of place in the Puritan household of her aunt, befriends an old woman considered a witch by the community and suddenly finds herself standing trial for witchcraft. *The Witch of Blackbird Pond* Pearson Australia The Newbery Award-winning author of *Up a Road Slowly* presents the unforgettable story of Jethro Creighton—a brave boy who comes of age during the turbulent years of the Civil War. In 1861, America is on the cusp of war, and young Jethro Creighton is just nine-years-old. His brother, Tom, and his cousin, Eb, are both of fighting age. As Jethro's family is pulled into the conflict between the North and the South, loyalties are divided, dreams are threatened, and their bonds are put to the test in this heart-wrenching, coming of age story. "Drawing from family records and from stories told by her grandfather, the author has, in an uncommonly fine narrative, created living characters and vividly reconstructed a crucial period of history."—Booklist

A central current in the history of democratic politics is the tensions between the political culture of an informed citizenry and the potentially antidemocratic impulses of the larger mass of individuals who are only marginally involved in the political world. Given the public's low level of political interest and knowledge, it is paradoxical that the democratic system works at all. In *The Paradox of Mass Politics* W. Russell Neuman analyzes the major election surveys in the United States for the period 1948-1980 and develops for each a central index of political sophistication based on measures of political interest, knowledge, and style of political conceptualization. Taking a fresh look at the dramatic findings of public apathy and ignorance, he probes the process by which citizens acquire political knowledge and the impact of their knowledge on voting behavior. The book challenges the commonly held view that politically oriented college-educated individuals have a sophisticated grasp of the fundamental political issues of the day and do not rely heavily on vague political symbolism and party identification in their electoral calculus. In their expression of political opinions and in the stability and coherence of those opinions over time, the more knowledgeable half of the population, Neuman concludes, is almost indistinguishable from the other half. This is, in effect, a second paradox closely related to the first. In an attempt to resolve a major and persisting paradox of political theory, Neuman develops a model of three publics, which more accurately portrays the distribution of political knowledge and behavior in the mass population. He identifies a stratum of apoliticals, a large middle mass, and a politically sophisticated elite. The elite is so small (less than 5 percent) that the beliefs and behavior of its member are lost in the large random samples of national election surveys, but so active and articulate that its views are often equated with public opinion at large by the powers in Washington. The key to the paradox of mass politics is the activity of this tiny stratum of persons who follow political issues with care and expertise. This

book is essential reading for concerned students of American politics, sociology, public opinion, and mass communication.

#1 NEW YORK TIMES BESTSELLER • More than one million copies sold! A “brilliant” (Lupita Nyong’o, *Time*), “poignant” (Entertainment Weekly), “soul-nourishing” (USA Today) memoir about coming of age during the twilight of apartheid “Noah’s childhood stories are told with all the hilarity and intellect that characterizes his comedy, while illuminating a dark and brutal period in South Africa’s history that must never be forgotten.”—Esquire

Trevor Noah’s unlikely path from apartheid South Africa to the desk of *The Daily Show* began with a criminal act: his birth. Trevor was born to a white Swiss father and a black Xhosa mother at a time when such a union was punishable by five years in prison. Living proof of his parents’ indiscretion, Trevor was kept mostly indoors for the earliest years of his life, bound by the extreme and often absurd measures his mother took to hide him from a government that could, at any moment, steal him away. Finally liberated by the end of South Africa’s tyrannical white rule, Trevor and his mother set forth on a grand adventure, living openly and freely and embracing the opportunities won by a centuries-long struggle. Born a Crime is the story of a mischievous young boy who grows into a restless young man as he struggles to find himself in a world where he was never supposed to exist. It is also the story of that young man’s relationship with his fearless, rebellious, and fervently religious mother—his teammate, a woman determined to save her son from the cycle of poverty, violence, and abuse that would ultimately threaten her own life. The stories collected here are by turns hilarious, dramatic, and deeply affecting. Whether subsisting on caterpillars for dinner during hard times, being thrown from a moving car during an attempted kidnapping, or just trying to survive the life-and-death pitfalls of dating in high school, Trevor illuminates his curious world with an incisive wit and unflinching honesty. His stories weave together to form a moving and searingly funny portrait of a boy making his way through a damaged world in a dangerous time, armed only with a keen sense of humor and a mother’s unconventional, unconditional love.
