Biology Summary - Quia  
Chapter 1 The Science of  
Biology 1 – 1 What Is  
Science? Science is an  
organized way of using  
evidence to learn about the  
natural world. Scientific  
thinking usually begins with  
observation, which is the  
process of gather-ing  
information about events or  
processes in a careful,  
orderly way. The  
information gathered from  
observations is called data.

CHAPTER 1 – THE SCIENCE OF BIOLOGY 1-1

What is Science The goal of science is to investigate and understand nature, to explain

events in nature, and to use those explanations to make useful predictions. Science is an organized way of using evidence to learn about the natural world. Biology Study Guide Chapter 1 The Science of Biology Chapter 1: The Science of Psychology – Research Methods in Psychology. Many people believe that women tend to talk more than men—with some even suggesting that this difference has a biological basis. One widely cited estimate is that women speak 20,000 words per day on average and men speak only 7,000. This claim seems plausible, but is it true? A group of psychologists led by Matthias Mehl decided to find out.
