Chapter 1: The Science of Psychology –
Research Methods in Psychology. Many people
believe that women tend to talk more than
men—with some even suggesting that this
difference has a biological basis. One widely cited
estimate is that women speak 20,000 words per
day on average and men speak only 7,000. This
claim seems plausible, but is it true? A group of
psychologists led by Matthias Mehl decided to
find out.

Linguistics

1\$ Chapter 1: The Ladder of Causation In the
Beginning... I was probably six or seven years old
when I first read the story of Adam and Eve in the
Garden of Eden. My classmates and I were not at
all surprised by God ' s capricious demands,
forbidding Adam from eating from the Tree of
Knowledge. Deities have their reasons, we
thought.
