The Federalist Papers University of Chicago Press

Now in its seventh edition, the Cato Handbook for Policymakers sets the standard in Washington for reducing the power of the federal government and expanding freedom. The 63 chapters—each beginning with a list of major policy recommendations—offer issue-by-issue blueprints for promoting individual liberty, free markets, and peace. Providing both in-depth analysis and concrete recommendations, Cato's Handbook is an invaluable resource for policymakers and anyone else interested in securing liberty and limiting government.

The 9/11 Commission Report Cengage Learning

This book argues that Congress's process for making law is as corrosive to the nation as unchecked deficit spending. David Schoenbrod shows that Congress and the president, instead of making the laws that govern us, generally give bureaucrats the power to make laws through agency regulations. Our elected "lawmakers" then take credit for proclaiming popular but inconsistent statutory goals and later blame the inevitable burdens and disappointments on the unelected bureaucrats. The 1970 Clean Air Act, for example, gave the Environmental Protection Agency the impossible task of making law that would satisfy both industry and environmentalists. Delegation allows Congress and the president to wield power by pressuring agency lawmakers in private, but shed responsibility by avoiding the need to personally support or oppose the laws, as they must in enacting laws themselves. Schoenbrod draws on his experience as an attorney with the Natural Resources Defense Council and on studies of how delegation actually works to show that this practice produces a regulatory system so cumbersome that it cannot provide the protection that people need, so large that it needlessly stifles the economy, and so complex that it keeps the voters from knowing whom to hold accountable for the consequences. Contending that delegation is unnecessary and unconstitutional, Schoenbrod has written the first book that shows how, as a practical matter, delegation can be stopped.

Monthly Consular and Trade Reports Cengage Learning

"A must-read for this era."—Jake Tapper, CNN Anchor and Chief Washington Correspondent An insightful, urgent, and perennially relevant handbook that lays out in common sense language how the United States Constitution works, and how its protections are eroding before our eyes—essential reading for anyone who wants to understand and parse the constantly breaking news about the backbone of American government. The Constitution is the most significant document in America. But do you fully understand what this valuable document means to you? In *How to Read the Constitution--and Why*, legal expert and educator Kimberly Wehle spells out in clear, simple, and common sense terms what is in the Constitution, and most importantly, what it means. In compelling terms and including text from the United States Constitution, she describes how the Constitution's protections are eroding—not only in express terms but by virtue of the many legal and social norms that no longer shore up its legitimacy—and why every American needs to heed to this “red flag” moment in our democracy. This invaluable—and timely—resource includes the Constitution in its entirety and covers nearly every significant aspect of the text, from the powers of the President and how the three branches of government are designed to hold each other accountable, to what it means to have individual rights—including free speech, the right to bear arms, the right to be free from unreasonable searches and seizures, and the right to an abortion. Finally, the book explains why it has never been more important than now for all Americans to know how our Constitution works—and why, if we don't step in to protect it now, we could lose its protections forever. *How to Read the Constitution--and Why* is essential reading for anyone who cares about maintaining an accountable government and the individual freedoms that the Constitution enshrines for everyone in America—regardless of political party.

Politics and the Constitution in the History of the United States Ronin Publishing

The presidential historian charts the progression of American power from George Washington to George W. Bush, revealing the exercise of power through the office as it has developed into an "imperial" seat of authority, in an updated edition of the classic history. Reprint.

A Manual of Parliamentary Practice Houghton Mifflin Harcourt

How Trump has used the federal government to promote conservative policies The presidency of Donald Trump has been unique in many respects—most obviously his flamboyant personal style and disregard for conventional niceties and factual information. But one area hasn't received as much attention as it deserves: Trump's use of the "administrative presidency," including executive orders and regulatory changes, to reverse the policies of his predecessor and advance positions that lack widespread support in Congress. This book analyzes the dynamics and unique qualities of Trump's administrative presidency in the important policy areas of health care, education, and climate change. In each of these spheres, the arrival of the Trump administration represented a hostile takeover in which White House policy goals departed sharply from the more "liberal" ideologies and objectives of key agencies, which had been embraced by the Obama administration. Three expert authors show how Trump has continued, and even expanded, the rise of executive branch power since the Reagan years. The authors intertwine this focus with an in-depth examination of how the Trump administration's hostile takeover has drastically changed key federal policies—and reshaped who gets what from government—in the areas of health care, education, and climate change. Readers interested in the institutions of American democracy and the nation's progress (or lack thereof) in dealing with pressing policy problems will find deep insights in this book. Of particular interest is the book's examination of how the Trump administration's actions have long-term implications for American democracy.

American Government and Politics Today Cengage Learning

AMERICAN GOVERNMENT AND POLITICS TODAY is known nationwide for its balanced, unbiased, and modern coverage of constitutional, governmental, political, social, and economic structures and their processes. Composed Originally for the Use of the Senate of the United States John Wiley & Sons

This authoritative edition of the complete texts of the Federalist Papers, the Articles of Confederation, the U.S. Constitution, and the Amendments to the U.S. Constitution features supporting essays in which leading scholars provide historical context and analysis. An introduction by Ian Shapiro offers an overview of the publication of the Federalist Papers and their importance. In three additional essays, John Dunn explores the composition of the Federalist Papers and the conflicting agendas of its authors; Eileen Hunt Botting explains how early advocates of women's rights, most prominently Mercy Otis Warren, Judith Sargent Murray, and Charles Brockden Brown, responded to the Federalist-Antifederalist debates; and Donald Horowitz discusses the Federalist Papers from the perspective of recent experiments with democracy and constitution-making around the world. These essays both illuminate the original texts and encourage active engagement with them.
