Chapter 13 - Investing in Mutual Funds Chapter 13 Investing in Mutual Funds Answer Key True / Questions 1. (p. 429) For individuals, stocks and bonds are safer choices than mutual funds because money is pooled from many investors for mutual funds. FALSE Mutual funds are better choices for this reason.

Bonds are a type of investment that results in an investor lending money to the bond issuer in exchange for interest payments. Bonds are one of the most important investments available for those who follow an income investing philosophy, hoping to live off the money generated by their portfolio. With the variety of different options available to you, including municipal bonds, commercial bonds ...

Bonds are as important to an investment portfolio today as ever. For years, investors were told that stocks were the best vehicle for long-term savings, and that sentiment persists today even in the wake of two stock market crashes thus far in the 21 st century. But those who downplay the role of bonds may be missing out on significant opportunities.
