Mein Kampf Bantam
In The Great War and
American Foreign Policy,
1914-1924, Robert E.
Hannigan challenges the
conventional belief that the
United States entered World
War I only because its hand
was forced and disputes the
claim that Washington was
subsequently driven by a
desire "to make the world
safe for democracy."

War* Cambridge University
Press

This book features a
comprehensive historical
account of the First World
War (1914-1918) based on
official sources, diplomatic
and state papers.

Contemporaneously known
as the Great War or "the
war to end all wars", it led

to the mobilization of more
than 70 million military
personnel, including 60
million Europeans, making it
one of the largest wars in
history. It is also one of the
deadliest conflicts in history,
with an estimated nine
million combatant deaths
and 13 million civilian
deaths as a direct result of
the war, while resulting
genocides and the related
1918 Spanish flu pandemic
caused another 17-100
million deaths worldwide,
including an estimated 2.64
million Spanish flu deaths in
Europe and as many as
675,000 Spanish flu deaths
in the United States.

Following the declining health of the Emperor, the smell of Great War is coming to shake the Qing's dynasty. Would Han Xin, a young and talented military strategist, follow his destiny to become part of the changing times? *Pacified Storm* is a Colossal manga based on the heroic act of the "Three Heroes of the Early Han Dynasty" which would certainly entertain every

historical manga fans.

A short history of the Great War
Chump Change

Two young boys encounter the best and worst of humanity during the Holocaust in this powerful read that USA Today called "as memorable an introduction to the subject as *The Diary of Anne Frank*." Berlin, 1942: When Bruno returns home from school one day, he discovers that his belongings are being packed in crates. His father has received a promotion and the family must move to a new house far, far away, where there is no one to play with and nothing to do. A tall fence stretches as far as the eye can see and cuts him off from the strange people in the distance. But Bruno longs to be an explorer and decides that there must be more to this desolate new place than meets the eye. While exploring his new environment, he meets another boy whose life and circumstances are very different from his own, and their meeting results in a friendship that has devastating consequences.

The Great War in the Middle

East Pen and Sword

From the Treaty of Versailles to the 2018 centenary and beyond, the history of the First World War has been continually written and rewritten, studied and contested, producing a rich historiography shaped by the social and cultural circumstances of its creation. *Writing the Great War* provides a groundbreaking survey of this vast body of work, assembling contributions on a variety of national and regional historiographies from some of the most prominent scholars in the field. By analyzing perceptions of the war in contexts ranging from Nazi Germany to India's struggle for independence, this is an illuminating collective study of the complex interplay of memory and history.

On War Routledge

Merriam Press Naval History Series. The first decade of the 20th century ushered in a new era in the role of the navy in world affairs, which can be attributed directly to the writings of Alfred Thayer Mahan. The introduction of the HMS Dreadnought, the first modern battleship, by the British in 1906 rendered existing battleships obsolete. This technological development was followed by the commissioning of the world's first battlecruiser, HMS Indomitable, two years later. The German Navy responded and the first arms race of the 20th Century was on, which would lead to an inevitable showdown between the two naval superpowers nearly ten years later. The Great War ends with the scuttling of the German High Seas Fleet, including their battlecruiser squadron, in July 1919. The Washington Conference in 1920 severely restricts the construction of new dreadnoughts. The HMS Hood is the only battlecruiser commissioned between 1920 and 1937. The termination of the Washington Naval Treaty in the

early 1930s brings about a renaissance in battlecruiser construction. The French are first off the mark with the introduction of the Dunkerque-class battlecruiser. These developments are followed shortly with the introduction of the German Scharnhorst-class. The British and Japanese undertake a modernization of their existing battlecruisers. Even the Americans get into the act with the construction of the Alaska-class. World War II ends with only four remaining battlecruisers out of a total of 30 that were commissioned. By 1960 only the Goeben remains. She is paid off and scrapped during the early 1970s. The sixty-plus year era of the battlecruiser is over; however, the legacy lives on. Contents

Chapter 1. Initial Developments
Chapter 2. Escape of the SMS Goeben (August 3-10, 1914)

The Pennsylvania Journey e-artnow

Almost 400 men from the Chelmsford were lost in the Great War. This book explores how the experience of war impacted on the Town, from the initial enthusiasm for sorting out the German Kaiser in time for Christmas 1914, to the gradual realization of the enormity of human sacrifice

the families of Chelmsford were committed to as the war stretched out over the next four years. A record of the growing disillusion of the people, their tragedies and hardships and a determination to see it through. ??The Great War affected everyone. At home there were wounded soldiers in military hospitals, refugees from Belgium and later on German prisoners of war. There were food and fuel shortages and disruption to schooling. The role of women changed dramatically and they undertook a variety of work undreamed of in peacetime. Meanwhile, men serving in the armed forces were scattered far and wide. Extracts from contemporary letters reveal their heroism and give insights into what it was like under battle conditions.

The Pity of War American Bar Association

This Companion volume offers fifteen original essays on the Hellenistic world and is intended to complement and supplement general histories of the period from Alexander the Great to Kleopatra VII of Egypt. Each chapter treats a different aspect of the Hellenistic world - religion, philosophy, family, economy, material culture, and military campaigns, among other topics. The essays address key questions about this period: To what extent were Alexander's conquests responsible for the creation of this new 'Hellenistic' age? What is the essence of this world and how does it differ from its Classical predecessor? What continuities and discontinuities can be

identified? Collectively, the essays provide an in-depth view of a complex world. The volume also provides a bibliography on the topics along with recommendations for further reading.

Aleister Crowley, Sylvester Viereck, Literature, Lust, and the Great War University of Pennsylvania Press

“ An invaluable eye-witness account of life at the lower levels of the German Army during the First World War. ” —HistoryOfWar.org At once harrowing and lighthearted, Herbert Sulzbach ’ s exceptional diary has been highly praised since its original publication in Germany in 1935. With the reprint of this classic account of trench warfare, it records the pride and exhilaration of what to him was the fight for a just cause. It is one of the very few available records of an ordinary German soldier during the First World War.

“ One of the most notable books on the Great War. It is a book which finely expressed the true

soldierly spirit on its highest level; the combination of a high sense of duty, courage, fairness and chivalry. ” —Sir Basil Liddell Hart “ Herbert Sulzbach ’ s first person diary focuses on four years of trench warfare and is a valuable contribution to the overall individual story of the First World War, more so than many other such accounts perhaps, as the author was German. ” —OCAD Militaria Collectors Resources “ A first-class personal account of Herbert Sulzbach ’ s war seen through his diaries. There is much insight into both his and the German soldier ’ s attitude to war and events . . . a very readable narrative and adds to the library of sources that are invaluable to counter the legions of postmodern re-evaluations of the German soldier. ” —Battlefield Guide

The Boy in the Striped Pajamas BRILL

This is a sweeping narrative of American domestic public policy—its triumphs, struggles, and failures over the past 120 years. In a larger

sense, it is a reflection on how the United States has grown and matured, faced challenges and opportunities, and how its federal leaders and policymakers have responded or failed to confront pressing problems. Moreover, *American Public Policy* addresses the hurdles and challenges that still lie ahead. Four critical questions are posed and answered. First, what were the most significant adversities endured by the American people? Second, what were the landmark domestic policies crafted by the president, enacted by Congress, or issued in Supreme Court decisions? Third, what did they fail to do? Finally, how well have federal policymakers met the key challenges facing America: income inequality, racism, financial crises, terrorist attacks, climate change, gun violence, and other pressures? And what do we still need to do? This book reaches out to students of public policy, American government, US history, and contemporary affairs, as well as to citizens, journalists, and policy practitioners.

U.S. History John Wiley & Sons
Explores many of the important social, historical and cultural contexts surrounding the life and works of F. Scott Fitzgerald.

Utah Psychology Press
The Great War was a turning point of the twentieth century, giving birth to a new, modern, and industrial approach to warfare that changed the world forever. The remembrance, awareness, and knowledge of the conflict and, most importantly, of those who participated and were affected by it, altered from country to country, and in some cases has been almost entirely forgotten. New research strategies have emerged to help broaden our

understanding of the First World fighting in the war.

War. Multidisciplinary approaches have been applied to material culture and conflict landscapes, from archive sources analysis and aerial photography to remote sensing, GIS and field research. Working within the context of a material and archival understanding of war, this book combines papers from different study fields that present interdisciplinary and multidisciplinary approaches towards researching the First World War and its legacies, with particular concentration on the central and eastern European theatres of war.

Soviet Union in World War II
Yale University Press
Whitehaven in the Great War
covers Whitehaven's immense contribution to the Great War effort; it is thought that 625 Whitehaven men from a town that, in 1901, had a population of around 21,000 lost their lives

Meanwhile, on the home front, military service deprived many businesses of their established male workers, and women went to work in what had previously been exclusively male areas of employment. Notable people written about include recipient of the Victoria Cross Abraham Acton, an Orangeman in Whitehaven; local hero Robert Curwen Richmond Blair DSO, EM; and close friend to Kaiser Wilhelm II, Lord Lonsdale, the famous Yellow Earl who formed his own Pals battalion, the Lonsdales (11th Battalion, Border Regiment), to fight the Germans. It was often said, 'No bombing Zeppelin or Gothe ever attacked our peaceful backwater during hostilities.' However, on 16 August 1915 a U-boat, U-24, shelled the Harrington Coke

works at nearby Lowca. This unexpected attack caught the community off-guard, and during the hour-long bombardment fifty-five shells rained down on the factory and the surrounding area not one single shot was fired in return. War memorials to those killed in the Great War have been moved following church closures, however this book acts as a practical reference guide to where these memorials stand today. Interesting stories come to light, like that of Baden Powell Thornthwaite, whose name was inscribed on a local grammar school war memorial, who had not died after all, but most likely deserted.

A World Undone Thomas Nelson
A bold new interpretation of the First World War and the birth of the American Century In the depths of the Great War, with millions dead and no end to the

conflict in sight, societies around the world began to buckle. The strain of total war ravaged all economic and political assumptions, shattering old empires and redrawing maps across Europe and the Middle East. A century after the outbreak of fighting, Yale historian Adam Tooze takes an entirely new perspective on “the war to end all wars,” focusing on the closing years of the conflict and its aftermath up to the Great Depression. This tumultuous period saw hopes for lasting peace and liberal internationalism collide with violent upheavals and the ultimate rise of totalitarian regimes. And it saw the emergence of a new global order in which all the major powers—the war's winners and losers alike—saw their fates bound up with those of the United States, now the world's dominant economic force. All-embracing, powerfully argued, and deeply instructive, *The Deluge* is essential reading for anyone who wants to understand the roots of America's fraught relationship with the world.

Rites of Spring Penguin

Books

‘ MEIN KAMPF ’ is the autobiography of Adolf Hitler gives detailed insight into the mission and vision of Adolf Hitler that shook the world. This book is the merger of two volumes. The first volume of MEIN KAMPF ’ was written while the author was imprisoned in a Bavarian fortress. The book deals with events which brought the author into this blight. It was the hour of Germany ’ s deepest humiliation, when Napoleon has dismembered the old German Empire and French soldiers occupied almost the whole of Germany. The books narrates how Hitler was arrested with several of his comrades and imprisoned in the fortress of Landsberg on the river Lech. During this period only the author wrote the first volume of MEIN

KAMPF. The Second volume of MEIN KAMPF was written after release of Hitler from prison and it was published after the French had left the Ruhr, the tramp of the invading armies still echoed in German ears and the terrible ravages had plunged the country into a state of social and economic Chaos. The beauty of the book is, MEIN KAMPF is an historical document which bears the imprint of its own time. Moreover, Hitler has declared that his acts and ‘ public statements ’ constitute a partial revision of his book and are to be taken as such. Also, the author has translated Hitler ’ s ideal, the Volkischer Staat, as the People ’ s State. The author has tried his best making German Vocabulary easy to understand. You will never be satisfied until go through the

whole book. A must read book, which is one of the most widely circulated and read books worldwide.

American Public Policy Gibbs
Smith Publishers

A lively, engaging history of The Great War written for a new generation of readers In recent years, scholarship on World War I has turned from a fairly narrow focus on military tactics, weaponry, and diplomacy to incorporate considerations of empire, globalism, and social and cultural history. This concise history of the first modern, global war helps to further broaden the focus typically provided in World War I surveys by challenging popular myths and stereotypes to provide a new, engaging account of The Great War. The conventional World War I narrative that has evolved over the past century is that of an inevitable but useless war, where men were needlessly slaughtered due to poor decisions by hidebound officers. This characterization developed out of a narrow focus on the Western Front promulgated

mainly by British historians. In this book, Professor Proctor provides a broader, more multifaceted historical narrative including perspectives from other fronts and spheres of interest and a wider range of participants. She also draws on recent scholarship to consider the gendered aspect of war and the ways in which social class, religion, and cultural factors shaped experiences and memories of the war. Structured chronologically to help convey a sense of how the conflict evolved Each chapter considers a key interpretive question, encouraging readers to examine the extent to which the war was total, modern, and global Challenges outdated stereotypes created through a focus on the Western Front Considers the war in light of recent scholarship on empire, global history, gender, and culture Explores ways in which the war and the terms of peace shaped the course of the 20th century World War I: A Short History is sure to become required reading in undergraduate survey courses on WWI, as well as courses in military history, the 20th century world, or

the era of the World Wars.

World War I Basic Books

In the years of and around the First World War, American poets, fiction writers, and dramatists came to the forefront of the international movement we call Modernism. At the same time a vast amount of non- and anti-Modernist culture was produced, mostly supporting, but also critical of, the US war effort. A History of American Literature and Culture of the First World War explores this fraught cultural moment, teasing out the multiple and intricate relationships between an insurgent Modernism, a still-powerful traditional culture, and a variety of cultural and social forces that interacted with and influenced them. Including genre studies, focused analyses of important wartime movements and groups, and broad historical assessments of the significance of the war as prosecuted by the United States on the world stage, this book presents original essays defining the state of scholarship on the American culture of the First World War.
