Chapter 13 The Respiratory System Questions Flashcards by ...

Chapter 13 The Respiratory System

Chapter 13 - The Respiratory System

- Air passes through the nose, mouth, pharynx, larynx, and trachea and then into the lungs (Figure 13-1).
- The nasal cavity is lined with mucous membrane that warms and moistens the air as it passes through; moisture protects the cilia.
- The mucous membrane secretes mucus, which traps dust particles and bacteria.
