History of the Christian Religion Thomas Nelson

"This volume brings to English-language readers the results of an important long-term project of historians from China and Japan addressing contentious issues in their shared modern histories. Originally published simultaneously in Chinese and Japanese in 2006, the thirteen essays in this collection focus renewed attention on a set of political and historiographical controversies that have steered and stymied Sino-Japanese relations from the mid-nineteenth century through World War II to the present. These in-depth contributions explore a range of themes, from prewar diplomatic relations and conflicts, to wartime collaboration and atrocity, to postwar commemorations and textbook debates—all while grappling with the core issue of how history has been researched, written, taught, and understood in both countries. In the context of a wider trend toward cross-national dialogues over historical issues, this volume can be read as both a progress report and a case study of the effort to overcome contentious problems of history in East Asia."

Between 1540 and 1654, *The Birth of Mankind* was a huge commercial success. Offering information on fertility, pregnancy, birth, and infant care, and written in a chatty, colloquial style, it influenced most other literary works of the period bearing on sex, reproduction, and childcare. Until now, this important text has been unavailable

except for a microfilm of the 1654 edition. For this new annotated edition of the 1560 version, Elaine Hobby has modernized the spelling and included informative notes. In her critical introduction, she not only traces the development of the book from its German origins, but also shows how early-modern ideas about the reproductive process combined ancient, medieval, and contemporary conceptions. Combining editorial rigour with a concern for the needs of the informed non-specialist, Hobby has made available a text that will be useful to scholars and students in a range of academic disciplines, including literature, history, and women's studies.

Sometimes who we meet upon life's journey helps determine what, when, where, how, and why we learn. This intricate web of learning connects us to people, places, and things, all of which provide energy, hope, and opportunities for us. Sometimes, we recognize these opportunities, and sometimes, we don't see the real value they create. More often than not, the value created cannot be adequately measured, for nothing can compare to the experience created by time. Trouble with a Capital L-U-K-E is a true story about time and the value created through lessons learned in a special relationship with a dog. Told from a first-person perspective with transparent honesty, it is a testament to a relationship that required a lot of faith, patience, diligence, and prayer. It is also an example of how God works in ways we do not see to provide the things we need most in life.

Activated in May 1942, the 504th Parachute Infantry Regiment earned high praise for its very first mission when it effected the first U.S. mass regimental combat jump of World War II in the invasion of Sicily. According to German General Kurt Student, "if it had not been for the Allied airborne forces blocking the tanks of the Hermann Göring Division from reaching the beachhead, that Division would have driven the initial seaborne forces back into the sea." Led by Col. Reuben Tucker, the 504th subsequently dropped into the endangered Fifth U.S. Army beachhead at Salerno; bitter fighting led to hard-won success at Altavilla and Hill 424 and the regimental motto "Strike and Hold." Birth of a Regiment is the first book-length account of the birth of U.S. airborne forces, and the first to fully capture the details, danger, and crucial stakes of the initial 504th missions in the unforgettable voices of the newly minted paratroopers who fought the first Allied battles in the ETO up through the victorious entry into Naples. These initial missions were all the more important, in that they would determine future Allied strategy, planning, and tactics. It is not to be forgotten that Sicily was a testing ground for the Allied coalition: the first time an American army and a British army, managed at the top by a unified Allied staff, would undertake a major campaign. According to James M. Gavin, the Commanding General of the 82nd ABD at the end of the war, who had jumped into Sicily himself: "What was

learned in that first cooperative action affected the whole outcome of World War II." Personally interviewed by the author over a period of 20 years, nearly 200 veterans of the 504th recount their remembrance of combat, permitting readers of Birth of a Regiment to relive epic battles of the ETO through the words of the very men who made history. Participants include survivors and witnesses of the tragic decimation of 23 aircraft and the death of 164 paratroopers and crew when U.S. troops mistook them for the enemy and fired on their planes as they flew into Sicily. Veterans recount the ferocious, desperate battle at Biazzi Ridge, and the later regimental action at the Salerno Beachhead, where the 504th crucially took Hill 424 after a night drop and seaborne landing. Having undisputedly proven their prowess, Tucker's troopers were chosen to spearhead the Fifth Army drive into Naples. These dramatic, unforgettable memories of the war provide new information from the foxhole view on up, giving historians and lay readers alike fresh perspective on the initial U.S. engagements in WWII and the difficult birth of Allied airborne operations. The volume is enriched by new maps and historic archival photos, including many previously unpublished photos and provided by 504th veterans.

Lightly tracing his personal experiences growing up in the Bible Belt as a born-again Christian, James A. Sanders recounts his second rebirth experience and subsequent efforts to battle what can most broadly be called evangelicalism's denial of dignity and human worth to those different from the so-called norm. While Sanders cherishes his early experience of being "saved" or "born again," he has become deeply concerned at what has happened to the evangelical movement in America, especially in its being politicized and removed from any kind of valid interpretation of the Bible itself. Sanders critiques evangelicalism for restricting the Holy Spirit's work to the realm of personal experience and so for denying the Spirit's work in society to move believers beyond the ancient mores and metaphors that biblical authors and editors used to record God's work in antiquity. Sanders proposes that Christians read the Bible honestly in its ancient and moral contexts, and attempt with humility to register its prophetic condemnation of tribal views of God, in order to heed the Spirit's urgings to engage in the advancing monotheizing process that the Bible demands of its adherents.

Who were Tubalcain, Aholiab and Zabud and what is their significance for the Freemason? There is a general interest in the rituals of Freemasonry, generated in part by the apparently obscure references they contain. This is the only book that offers a guide to the stories used in

Masonic ritual and their links to the Bible and Christianity. The new Mason is directed to a 'serious contemplation of the Volume of the Sacred Law' — but that is easier said than done without a grounding in the Scriptures, something that fewer and fewer people have. The historical and geographical setting of the Bible is explained here, making such contemplation easier for Mason and non-Mason alike. Mike Neville has systematically cross-referenced the most influential Chapters of the Bible to the ceremonies. It is his intention to get Freemasons to understand the ritual — not just to memorise and regurgitate — as well as to elucidate for the non-Mason. Sacred Secrets will aid the clergy, theologians and any other person interested in Freemasonry to see the links between ritual and scripture.

The Bhagavad Gita, often referred to simply as the Gita, is a 700-verse Hindu scripture that is part of the ancient Indian epic, the Mahabharata. It is written in the form of a dialogue between Prince Arjuna and Lord Krishna, who serves as his charioteer. The Gita is considered one of the most important texts in the history of literature and philosophy and is revered as a sacred scripture in Hinduism. The Bhagavad Gita takes place on the battlefield of Kurukshetra, just before the start of a great war between two factions of a royal family, the Pandavas, and the Kauravas. Arjuna, a warrior prince and leader of the Pandavas, is filled with doubt and moral dilemmas about fighting in the war.
