As one of the most prolific and influential scholars in the field, Thomas D. Hill has made an indelible mark on the study of Old English literature. In celebration of his distinguished career, the editors of Source of Wisdom have assembled a wide-ranging collection of nineteen original essays on Old English poetry and prose as well as early medieval Latin, touching upon many of Hill's specific research

interests. Among the topics examined in this volume are the Christian-Latin sources of Old English texts, including religious and 'sapiential' poetry, and prose translations of Latin writings. Old English poems such as Beowulf, The Dream of the Rood, and The Wife's Lament are treated, throughout, to thematic, textual, stylistic, lexical, and source analysis. Prose writers of the period such as King Alfred and Wærferth, as well as medieval Latin writers such as Bede and Pseudo-Methodius are also discussed. As an added feature, the volume includes a bibliography of publications by Thomas D. Hill. Source of Wisdom is, ultimately, a contribution to the understanding of medieval English literature and

the textual traditions that contributed to its development. In this volume, Richard J. Clifford seeks

to make the biblical wisdom literature intelligible to modern readers. It is easy to quote the occasional proverb, say a few things about "the problem of evil" in Job, or quote "vanity of vanities, " but far more rewarding to read the whole book with an appreciative and informed eye. Opening chapters of The Wisdom Literature comment on the striking similarities between ancient and modern "wisdom literature" and on the comparable literature from ancient Mesopotamia, Egypt, and Canaan. Thereafter, a chapter is devoted to each biblical wisdom book (Proverbs, Job, Ecclesiastes, Song of Songs, Sirach, and Wisdom of Solomon), studying not only its content but also its rhetoric -- how it engages the reader.

History begins inseparably with the

birth of the polis and of philosophy. Both represent a unity in strife. History is life that no longer takes itself for granted. To speak, then, of the meaning of history is not to tell a story with a projected happy or unhappy ending, as Western civilization has hoped, at least since the French Revolution. History's meaning is the meaning of the struggle in which being both reveals and conceals itself. Technological society represents both the triumph of historicity and its implosion, since here humans turn from reaching for the sacrum imperium - life lived in the perspective of truth and justice - to the mundane satisfaction of

mundane needs, to life lived for the sake of catering to life.

Concise and accessible, this one-volume edition of the New Collegeville Bible Commentary: New Testament allows readers to explore any or all of the books with just one resource alongside their Bibles. The individual commentaries collected here are written by respected scholars, and they break open the biblical texts in a lively fashion. Readers will be able to engage Scripture more deeply and reflect on its meanings, nuances, and imperatives for living a Christian life in the twenty-first

century. Continuing Liturgical Press's long tradition of publishing biblical scholarship and interpretation, this commentary also answers the Second Vatican Council's call to make access to Scripture "open wide to the Christian faithful." Daniel Durken, OSB, is a Benedictine monk and priest of Saint John's Abbey. He taught Scripture and speech classes at Saint John's University for almost five decades and served as director of Liturgical Press from 1978-88. On Christian Doctrine is a theological text written by Augustine of Hippo. It consists of four books that describe how to interpret and teach the Scriptures. By writing this text,

Augustine set three tasks for Christian teachers and preachers: to discover the truth in the contents of the Scriptures, to teach the truth from the Scriptures, and to defend scriptural truth when it was attacked. Book One discusses enjoyment, use, interpretation, and the relation of various Christian doctrines to these concepts; Book Two discusses the types of unknown signs present in the world and defines each and presents methods for understanding the Scriptures; Book Three discusses how to interpret ambiguous literal and ambiguous figurative signs. Ambiguous signs are those whose meaning is unclear or confused; Book Four discusses the relationship between

Christian truth and rhetoric, the importance of eloquence, and the role of the preacher.

The Gospel according to John presents Jesus in a unique way as compared with other New Testament writings. Scholars have long puzzled and pondered over why this should be. In this book, James McGrath offers a convincing explanation of how and why the author of the Fourth Gospel arrived at a christological portrait of Jesus that is so different from that of other New Testament authors, and yet at the same time clearly has its

roots in earlier tradition. McGrath suggests that as the author of this Gospel sought to defend his beliefs about Jesus against the objections brought by opponents, he developed and drew out further implications from the beliefs he inherited. The book studies this process using insights from the field of sociology which helps to bring methodological clarity to the important issue of the development of Johannine Christology.
