---

(developed a similar theory but did not publish) Published the book, “ On the Origin of Species by Means of Natural Selection ” in 1859. Coined the phrase, “ descent with modification ” to describe the process of evolution. Ex: Darwin ’ s finches (13 species on the various islands, each with a beak adapted to the food available.

The Theory of Evolution Chapter 15 Worksheet Answers ...

Lamarck's theory of evolution includes the concept that organs in a species appear as a result of the actions of organisms as they use or fail to use body structures. The idea that only famine, disease, and war could prevent the endless growth of human populations was presented by Malthus.

Chapter 15 Flashcards | Quizlet  
Chapter 15 Darwin ’ s Theory of Evolution. The theory of evolution can explain the diversity of life on Earth. Evolution, or change over time, is the process by which modern organisms have descended from ancient organisms. A scientific theory is an explanation of natural events that is supported by evidence and can be tested with new evidence.
