Chapter 15 Darwin ' s Theory of Evolution. The theory of evolution can explain the diversity of life on Earth. Evolution, or change over time, is the process by which modern organisms have descended from ancient organisms. A scientific theory is an explanation of natural events that is supported by evidence and can be tested with new evidence.

Theory of Personality ...  
This chapter is concerned with  
the Special Theory of Relativity,  
which dates from 1905. In 1915  
Einstein published an additional  
theory, called the General  
Theory of Relativity. This latter  
theory deals with the extension  
of the Special Theory to the case  
of the law of gravitation; we shall  
not discuss the General Theory  
here.  
Chapter 15: The Theory of  
Evolution

15.1 Charles Darwin and  
Natural Selection The modern  
theory of evolution is the  
fundamental concept in  
biology. Recall that evolution  
is the change in populations  
over time. Learning the  
principles of evolution makes  
it easier to understand modern  
biology. One place to start is  
by learning about the ideas of  
English scientist
