Chapter 15

Chapter 15 Darwin's Theory of Evolution. The theory of evolution can explain the diversity of life on Earth. Evolution, or change over time, is the process by which modern organisms have

descended from ancient organisms. A scientific theory is an explanation of natural events that is supported by evidence and can be tested with new evidence.

This chapter is concerned with the Special Theory of Relativity, which dates from 1905.

In 1915 Einstein published an additional

theory, called the General Theory of

Relativity. This latter theory deals with the

extension of the Special Theory to the case of

the law of gravitation; we shall not discuss the

General Theory here.
