A highly respected, balanced, and thoroughly modern approach to US History, LIBERTY, EQUALITY, POWER, uses these three themes to show how the United States was transformed from hunter-gatherer and agricultural Native American societies into the most powerful industrial nation on earth. This approach helps students understand the impact of the notions of liberty and equality, which are often associated with the American story, and also how dominant and subordinate groups have affected and been affected by the ever-shifting balance of power. The text integrates the best of recent social and cultural scholarship -- including fun material on music and movies -- into a political story, offering students the most comprehensive and complete understanding of American history available. Available in the following split options: LIBERTY, EQUALITY, POWER, Sixth Edition (Chapters 1-32), ISBN: 978-0-495-90499-1; Volume 1: To 1877 (Chapters 1-17), ISBN: 978-0-495-91587-4; Volume 2: Since 1863 (Chapters 17-32), ISBN: 978-0-495-91588-1. An Introduction McGraw-Hill

Bangladesh did not exist as an independent state until 1971. Willem van Schendel's state-of-the-art history navigates the extraordinary twists and turns that created modern Bangladesh through ecological disaster, colonialism, partition, a war of independence and cultural renewal. In this revised and updated edition, Van Schendel offers a fascinating and highly readable account of life in Bangladesh over the last

two millennia. Based on the latest academic research and covering the numerous historical developments of the 2010s, he provides an eloquent introduction to a fascinating country and its resilient and inventive people. A perfect survey for travellers, expats, students and scholars alike.

Are all film stars linked to Kevin Bacon? Why do the stock markets rise and fall sharply on the strength of a vague rumour? How does gossip spread so quickly? Are we all related through six degrees of separation? There is a growing awareness of the complex networks that pervade modern society. We see them in the rapid growth of the Internet, the ease of global communication, the swift spread of news and information, and in the way epidemics and financial crises develop with startling speed and intensity. This introductory book on the new science of networks takes an interdisciplinary approach, using economics, sociology, computing, information science and applied mathematics to address fundamental questions about the links that connect us, and the ways that our decisions can have consequences for others.

#1 NEW YORK TIMES, WALL STREET JOURNAL, AND BOSTON GLOBE BESTSELLER • One of the most acclaimed books of our time: an unforgettable memoir about a young woman who, kept out of school, leaves her survivalist family and goes on to earn a PhD from Cambridge University "Extraordinary . . . an act of courage and self-invention."—The New York Times NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW • ONE OF PRESIDENT BARACK OBAMA'S FAVORITE BOOKS OF THE YEAR • BILL GATES'S HOLIDAY READING LIST • FINALIST: National Book Critics Circle's Award In Autobiography and John Leonard Prize For Best First Book • PEN/Jean Stein Book Award • Los Angeles Times Book Prize Born to survivalists in the mountains of Idaho, Tara Westover was seventeen the first time she set foot in a classroom. Her family was so isolated from mainstream society that there was no one to ensure the children received an education, and no one to intervene when one of Tara's older brothers became violent. When another brother got himself into college, Tara decided to try a new kind of life. Her quest for knowledge transformed her, taking her over oceans and across continents, to Harvard and to Cambridge University. Only then would she wonder if she'd traveled too far, if there was still a way home. "Beautiful and propulsive . . . Despite the singularity of [Westover's] childhood, the questions her book poses are universal: How much of ourselves should we give to those we love? For fans of Hatchet and Island of the Blue Dolphins comes Theodore Taylor's classic bestseller and Lewis Carroll Shelf Award winner, *The Cay*. Phillip is excited when the Germans invade the small island of Curaçao. War has always been a game to him, and he's eager to glimpse it firsthand—until the freighter he and his mother are traveling to the United States on is torpedoed. When Phillip comes to, he is on a small raft in the middle of the sea. Besides Stew Cat, his only companion is an old West Indian, Timothy. Phillip remembers his mother's warning about black people: "They are different, and they live differently." But by the time the castaways arrive on a small island, Phillip's head injury has made him blind and dependent on Timothy. "Mr. Taylor has provided an exciting story...The idea that all humanity would benefit from this special form of color blindness permeates the whole book...The result is a story with a high ethical purpose but no sermon."—New York Times Book Review "A taut tightly compressed story of endurance and revelation...At once barbed and tender, tense and fragile—as Timothy would say, 'outrageous good.'"—Kirkus Reviews * "Fully realized setting...artful, unobtrusive use of dialect...the representation of a hauntingly deep love, the poignancy of which is rarely achieved in children's literature."—School Library Journal, Starred "Starkly dramatic, believable and compelling."—Saturday Review "A tense and moving experience in reading."—Publishers Weekly "Eloquently underscores the intrinsic brotherhood of man."—Booklist "This is one of the best survival stories since Robinson Crusoe."—The Washington Star · A New York Times Best Book of the Year · A School Library Journal Best Book of the Year · A Horn Book Honor Book · An American Library Association Notable Book · A Publishers Weekly Children's Book to Remember · A Child Study Association's Pick of Children's Books of the Year · Jane Addams Book Award · Lewis Carroll Shelf Award · Commonwealth Club of California: Literature Award · Southern California Council on Literature for Children and Young People Award · Woodward School Annual Book Award · Friends of the Library Award, University of California at Irvine

The little-known story of a fierce rebellion against the Romans: "A very good read for anyone interested in ancient military history and historiography." —The NYMAS Review In the year AD 9, three Roman legions were crushed by the German warlord Arminius in the Battle of the Teutoburg Forest. This event is well known, but there was another uprising that Rome faced shortly before, which lasted from AD 6 to 9, and was just as intense. This rebellion occurred in the western Balkans—an area roughly corresponding to modern Croatia, Bosnia and Herzegovina, Slovenia, Montenegro, and parts of Serbia and Albania—and it tested the Roman Empire to its limits. For three years, fifteen legions fought in the narrow valleys and forest-covered crags of the Dinaric Mountains in a ruthless war of attrition against an equally ruthless and determined foe, and yet this conflict is largely unknown today. The Great Illyrian Revolt is believed to be the first book ever devoted to this forgotten war of the Roman Empire. Within its

pages, we examine the history and culture of the mysterious Illyrian people, the story of how Rome became involved in this volatile region, and what the Roman army had to face during those harrowing three years in the Balkans.

Candide is the picaresque tale of the titular character's fantastical journey from an insular, idealized life in a picturesque castle through the difficulties and evils of the real world. Satirical, comical, witty, and cutting, *Candide* was widely banned in its day for containing blasphemous and seditious concepts. Despite that, it survived controversy to become an important book in the Western literary heritage. Today *Candide* remains a breezy and darkly funny read. This book is part of the Standard Ebooks project, which produces free public domain ebooks.

Matt is six years old when he discovers that he is different from other children and other people. To most, Matt isn't considered a boy at all, but a beast, dirty and disgusting. But to El Patron, lord of a country called Opium, Matt is the guarantee of eternal life. El Patron loves Matt as he loves himself - for Matt is himself. They share the exact same DNA. As Matt struggles to understand his existence and what that existence truly means, he is threatened by a host of sinister and manipulating characters, from El Patron's power-hungry family to the brain-deadened eejits and mindless slaves that toil Opium's poppy fields. Surrounded by a dangerous army of bodyguards, escape is the only chance Matt has to survive. But even escape is no guarantee of freedom... because Matt is marked by his difference in ways that he doesn't even suspect.

In this chapter we ask a number of questions regarding the brain's realization of reward-based decision making: 1) What is the right mathematical framework to capture the actual choice learning sequences of animals? 2) How are the crucial variables for multi-step decision making, such as the action value, the history of choice, strategy for multi-step behavior and the reward prediction errors processed in the brain? 3) What is the brain's mechanism for the decision to pursue a delayed reward or to abandon it? We first show that some extension to the standard reinforcement learning framework is necessary for capturing the actual choice sequences of animals, which often include episodes of the win-stay-lose-shift strategy as well as history of choices and their value. In a multi-step choice task of monkeys, the neurons in the striatum encode the action values and the putamen plays a critical role in history-based action selection. Furthermore, the midbrain dopamine neurons represent the sum of the immediate and expected multiple future rewards and its prediction errors. In a delayed reward task in rats, waiting for delayed reward was associated with both higher level of serotonin release and sustained higher firing of serotonin neurons in the dorsal raphe nucleus.

In 1939, hatred took root in South Africa, where the seeds of apartheid were newly sown. There a boy called Peekay was born. He spoke the wrong language—English. He was nursed by a woman of the wrong color—black. His childhood was marked by

humiliation and abandonment. Yet he vowed to survive—he would become welterweight champion of the world, he would dream heroic dreams. But his dreams were nothing compared to what awaited him. For he embarked on an epic journey, where he would learn the power of words, the power to transform lives, and the mystical power that would sustain him even when it appeared that villainy would rule the world: *The Power of One*.

"Arise Ye Wretched of the Earth" provides a fresh account of the International Working Men's Association. Founded in London in 1864, the First International gathered trade unions, associations, co-operatives, and individual workers across Europe and the Americas. The IWMA struggled for the emancipation of labour. It organised solidarity with strikers. It took sides in major events, such as the 1871 Paris Commune. It soon appeared as a threat to European powers, which vilified and prosecuted it. Although it split up in 1872, the IWMA played a ground-breaking part in the history of working-class internationalism. In our age of globalised capitalism, large labour migration, and rising nationalisms, much can be learnt from the history of the first international labour organisation.
