Written by one of the founders of modern political philosophy, Thomas Hobbes, during the English civil war, *Leviathan* is an influential work of nonfiction. Regarded as one of the earliest examples of the social contract theory, *Leviathan* has both historical and philosophical importance. Social contract theory prioritizes the state over the individual, claiming that individuals have consented to the surrender of some of their freedoms by participating in society. These surrendered freedoms help ensure that the government can be run easily. In exchange for their sacrifice, the individual is protected and given a place in a steady social order.

Articulating this theory, Hobbes argues for a strong, undivided government ruled by an absolute sovereign. To support his argument, Hobbes includes topics of religion, human nature and taxation. Separated into four sections, Hobbes claims his theory to be the resolution of the civil war that raged on as he wrote, creating chaos and taking causalities. The first section, *Of Man* discusses the role human nature and instinct plays in the

formation of government. The second section, *Of Commonwealth* explains the definition, implications, types, and rules of succession in a commonwealth government. *Of a Christian Commonwealth* imagines the religion's role government and societal moral standards.

Finally, Hobbes closes his argument with *Of the Kingdom of Darkness*. Through the use of philosophical theory and historical study, Thomas Hobbes attempts to convince citizens to consider the cost and reward of being governed. Without an understanding of the sociopolitical theories that keep government bodies in power, subjects can easily become complicit or allow society to slip into anarchy. Created during a brutal civil war, Hobbes hoped to educate and persuade his peers. Though *Leviathan* was a work of controversy in its time, Hobbes' theories and prose has survived centuries, shaping the ideas of modern philosophy. This edition of *Leviathan* by Thomas Hobbes is now presented with a stunning new cover design and is printed in an easy-to-read font. With these accommodations, *Leviathan* is accessible and applicable to contemporary readers.

[America Through the Lens](#) Zola Books

The American-born author describes her family's experiences and impressions when they were forced to relocate to a camp for the Japanese in Owens Valley, California, called Manzanar, during World War II, detailing how she, among others, survived in a place of oppression, confusion, and humiliation. Reissue.

Cambridge University Press

Are all film stars linked to Kevin Bacon? Why do the stock markets rise and fall sharply on the strength of a vague rumour? How does gossip spread so quickly? Are we all related through six degrees of separation? There is a growing awareness of the complex networks that pervade modern society. We see them in the rapid growth of the Internet, the ease of global communication, the swift spread of news and information, and in the way epidemics and financial crises develop with startling speed and intensity. This

introductory book on the new science of networks takes an interdisciplinary approach, using economics, sociology, computing, information science and applied mathematics to address fundamental questions about the links that connect us, and the ways that our decisions can have consequences for others.

The Great Illyrian Revolt Pearson Higher Ed
The little-known story of a fierce rebellion against the Romans: "A very good read for anyone interested in ancient military history and historiography." —The NYMAS Review
In the year AD 9, three Roman legions were crushed by the German warlord Arminius in the Battle of the Teutoburg Forest. This event is well known, but there was another uprising that Rome faced shortly before, which lasted from AD 6 to 9, and was just as intense. This rebellion occurred in the western Balkans—an area roughly corresponding to modern Croatia, Bosnia and Herzegovina, Slovenia, Montenegro, and parts of Serbia and Albania—and it tested the Roman Empire to its limits. For three years, fifteen legions fought in the narrow valleys and forest-covered crags of the Dinaric Mountains in a ruthless war of attrition against an equally ruthless and determined foe, and yet this conflict is largely unknown today. The Great Illyrian Revolt is believed to be the first book ever devoted to this forgotten war of the Roman Empire. Within its pages, we examine the history and culture of the mysterious Illyrian people, the story of how Rome became involved in this volatile region, and what the Roman army had to face during those harrowing three years in the Balkans.
The Theban Saga Oxford University Press, USA

Bangladesh did not exist as an independent state until 1971. Willem van Schendel's state-of-the-art history navigates the extraordinary twists and turns that created modern Bangladesh through ecological disaster, colonialism, partition, a war of independence and cultural renewal. In this revised and updated edition, Van Schendel offers a fascinating and highly readable account of life in Bangladesh over the last two millennia. Based on the latest academic research and covering the numerous historical developments of the 2010s, he provides an eloquent introduction to a fascinating country and its resilient and inventive people. A perfect survey for travellers, expats, students and scholars alike.

The House of the Scorpion Studies in Global Social Histo

The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application.

The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

#1 NEW YORK TIMES, WALL STREET JOURNAL, AND BOSTON GLOBE BESTSELLER • One of the most acclaimed books of our time: an unforgettable memoir about a young woman who, kept out of school, leaves her survivalist family and goes on to earn a PhD from Cambridge University

"Extraordinary . . . an act of courage and self-invention." —The New York Times NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW • ONE OF PRESIDENT BARACK OBAMA'S FAVORITE BOOKS OF THE YEAR • BILL GATES'S HOLIDAY READING LIST • FINALIST: National Book Critics Circle's Award In Autobiography and John Leonard Prize For Best First Book • PEN/Jean Stein Book Award • Los Angeles Times Book Prize Born to survivalists in the mountains of Idaho, Tara Westover was seventeen the first time she set foot in a classroom. Her family was so isolated from mainstream society that there was no one to ensure the children received an education, and no one to intervene when one of Tara's older brothers became violent. When another brother got himself into college, Tara decided to try a new kind of life. Her quest for knowledge transformed her, taking her over oceans and across continents, to Harvard and to Cambridge University. Only then would she wonder if she'd traveled too far, if there was still a way home. "Beautiful and propulsive . . . Despite the singularity of [Westover's] childhood, the questions her book poses are universal: How much of

ourselves should we give to those we love? And how much must we betray them to grow up?" —Vogue NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post • O: The Oprah Magazine

Celebrate the thirtieth anniversary of the Newbery Honor – winning survival novel Hatchet with a pocket-sized edition perfect for travelers to take along on their own adventures. This special anniversary edition includes a new introduction and commentary by author Gary Paulsen, pen-and-ink illustrations by Drew Willis, and a water resistant cover. Hatchet has also been nominated as one of America's best-loved novels by PBS's The Great American Read. Thirteen-year-old Brian Robeson, haunted by his secret knowledge of his mother's infidelity, is traveling by single-engine plane to visit his father for the first time since the divorce. When the plane crashes, killing the pilot, the sole survivor is Brian. He is alone in the Canadian wilderness with nothing but his clothing, a tattered windbreaker, and the hatchet his mother had given him as a present. At first consumed by despair and self-pity, Brian slowly learns survival skills—how to make a shelter for himself, how to hunt and fish and forage for food, how to make a fire—and even finds the courage to start over from scratch when a tornado ravages his campsite. When Brian is finally rescued after fifty-four days in the wild, he emerges from his ordeal with new patience and maturity, and a greater understanding of himself and his parents.

A History of Bangladesh Random House This classroom-tested volume aspires to be a brief but technically and factually accurate exposition of linguistic description and history. Whether studied as prime subject or as background information, it should help students understand the assumptions and reasoning that underlie the contents of their handbooks and etymological dictionaries. This book should be a useful guide for anyone unfamiliar with (historical) linguistics who is studying the history of a language, and also for those who are enrolled in courses devoted to reading texts in old languages.

Liberty, Equality, Power: A History of the American People, Volume 1: To 1877 Prabhat Prakashan

Fallen Angels by Walter Dean Myers is a young

adult novel about seventeen-year-old Richie Perry, a Harlem teenager who volunteers for the Army when unable to afford college and is sent to fight in the Vietnam War. Perry and his platoon—Peewee, Lobel, Johnson, and Brunner—come face-to-face with the Vietcong, the harsh realities of war, and some dark truths about themselves. A thoughtful young man with a gift for writing and love of basketball, Perry learns to navigate among fellow soldiers under tremendous stress and struggles with his own fear as he sees things he'll never forget: the filling of body bags, the deaths of civilians and soldier friends, the effects of claymore mines, the fires of Napalm, and jungle diseases like Nam Rot. Available as an e-book for the first time on the 25th anniversary of its publication, Fallen Angels has been called one of the best Vietnam War books ever and one of the great coming-of-age Vietnam War stories. Filled with unforgettable characters, not least Peewee Gates of Chicago who copes with war by relying on wisecracks and dark humor, Fallen Angels "reaches deep into the minds of soldiers" and makes "readers feel they are there, deep in the heart of war." Fallen Angels has won numerous awards and honors, including the Coretta Scott King Award, an ALA Best Book for Young Adults, a Booklist Editors Choice, and a School Library Journal Best Book. Fallen Angels was #16 on the American Library Association's list of the most frequently challenged books of 1990 – 2000 for its realistic depiction of war and those who fight in wars.

Excerpt from Livy, Book IX Proc., vol. III.) maintains that the Roman patricians were of Sabine stock, while the plebeians represent the conquered Aborigines. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.

Hatchet Cengage Learning

In this chapter we ask a number of questions regarding the brain's realization of reward-based decision making: 1) What is the right mathematical framework to capture the actual choice learning

sequences of animals? 2) How are the crucial variables for multi-step decision making, such as the action value, the history of choice, strategy for multi-step behavior and the reward prediction errors processed in the brain? 3) What is the brain's mechanism for the decision to pursue a delayed reward or to abandon it? We first show that some extension to the standard reinforcement learning framework is necessary for capturing the actual choice sequences of animals, which often include episodes of the win-stay-lose-shift strategy as well as history of choices and their value. In a multi-step choice task of monkeys, the neurons in the striatum encode the action values and the putamen plays a critical role in history-based action selection. Furthermore, the midbrain dopamine neurons represent the sum of the immediate and expected multiple future rewards and its prediction errors. In a delayed reward task in rats, waiting for delayed reward was associated with both higher level of serotonin release and sustained higher firing of serotonin neurons in the dorsal raphe nucleus.

For the AP Course Casemate Publishers Krakauer's page-turning bestseller explores a famed missing person mystery while unraveling the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons.

"Terrifying... Eloquent... A heart-rending drama of human yearning." —New York Times In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the unforgettable story of *Into the Wild*. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the

map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding--and not an ounce of sentimentality. Mesmerizing, heartbreaking, *Into the Wild* is a tour de force. The power and luminosity of Jon Krakauer's storytelling blaze through every page.

A Novel America's History For the AP Course
Guitar King Michael Bloomfield's *Life in the Blues*

This book is a comprehensive study of the myth of the Egyptian deities *mesw* *Bd š t* - 'Children of Weakness' - and the scene depicting the cat, cutting off the head of the serpent under the branches of the *i š d*-tree found on a number of Book of the Dead chapter 17 vignettes.

"Arise Ye Wretched of the Earth" provides a fresh account of the International Working Men's Association. Founded in London in 1864, the First International gathered trade unions, associations, co-operatives, and individual workers across Europe and the Americas. The IWMA struggled for the emancipation of labour. It organised solidarity with strikers. It took sides in major events, such as the 1871 Paris Commune. It soon appeared as a threat to European powers, which vilified and prosecuted it. Although it split up in 1872, the IWMA played a ground-breaking part in the history of working-class internationalism. In our age of globalised capitalism, large labour migration, and rising nationalisms, much can be learnt from the history of the first international labour organisation.
