The book examines and analyses in depth the specific issues which are currently occupying the marine insurance markets and the law. The London market is currently re-examining its practices and international competitiveness; and the English case law is growing significantly. The issues identified in the book are the “ fundamental issues ” on which marine insurance law is based, and which are in the process of being re-examined and developed further to respond to the needs of modern insurance practice. They are of wider interest to insurance law in general and the evolution of English law is analysed against the backdrop of legal developments in Europe and Scandinavia.

Antiquities of the Jews ; Book - XVIII

Cambridge University Press

Each year, Stockholm is the arbitration seat of choice for numerous parties endeavouring to resolve international disputes. It is the second most used venue for investment disputes, and it is often the venue for disputes arising from the Energy Charter Treaty. This annual publication, launched under the auspices of the Stockholm Centre for Commercial Law, is designed to meet the information needs of arbitration practitioners and parties from all

over the world. The present edition provides authoritative chapters, some of them with a Swedish angle, that address current matters of global concern in arbitration, including the following: dispute resolution in the financial sector; emergency arbitration; recent Swedish case law related to arbitration and in particular one seminal case; arbitrator liability; the right to a public hearing in arbitration; and squeeze-out arbitration. The Yearbook provides both perspective and detailed analyses that will be welcomed by arbitration practitioners, counsel, and judges deciding arbitration cases. It will also provide valuable insights for arbitration academics, in-house counsel at multinational companies, and arbitral institutions worldwide.

During the years 1903-1914,

Ramanujan worked in almost complete isolation in India. During this time, he recorded most of his mathematical discoveries without proofs in notebooks. Although many of his results were already found in the literature, most were not. Almost a decade after Ramanujan's death in 1920, G.N. Watson and B.M. Wilson began to edit Ramanujan's notebooks,

but they never completed the task. A photostat edition, with no editing, was published by the Tata Institute of Fundamental Research in Bombay in 1957. This book is the fourth of five volumes devoted to the editing of Ramanujan's notebooks. Parts I, II, and III, published in 1985, 1989, and 1991, contain accounts of Chapters 1-21 in Ramanujan's second notebook as well as a description of his quarterly reports. This is the first of two volumes devoted to proving the results found in the unorganized portions of the second notebook and in the third notebook. The author also proves those results in the first notebook that are not found in the second or third notebooks. For those results that are known, references in the literature are provided. Otherwise, complete proofs are given. Over 1/2 of the results in the notebooks are new. Many of them are so startling and different that there are no results akin to them in the literature.

With contributions from over 80 of the biggest names and rising stars of the field, this Handbook is an essential resource for anyone interested in the contemporary, emerging, and evolving practice of mixed methods research and scholarship. Exploring new and novel applications of existing mixed methods research design practices, the handbook provides comprehensive integration guidance while showcasing how design innovations inspire and contribute to investigating previously under-researched social issues and populations. Through its unique focus on design and the diverse contexts in which mixed methods research is being applied, this Handbook prepares researchers for the changing conditions in which they will conduct studies. Newcomers and seasoned mixed methods researchers alike will find this Handbook a go-to source for tools to

think and act 'complexively' and creatively in research design. Using accessible language and illustrative examples, this Handbook is written for those with various roles and experience in mixed methods research design. The in-depth discussions led by the interdisciplinary group of 11 internationally renowned editorial section leads project our collective thinking of mixed methods research design into the future across the following six sections: Section 1: Inspiring Diversity and Innovation in Mixed Methods Design Section 2: The Craft of Mixed Methods Research Design Section 3: Expanding Mixed Methods Design Approaches Section 4: Designing Innovative Integrations with Technology Section 5: Navigating Research Cultures in Mixed Methods Design Section 6: Exploring Design Possibilities and Challenges for Mixed Methods Research

The Complete Works of W. R. Bion is now available in a coherent and corrected format. Comprising sixteen volumes bound in green cloth, this edition has been brought together and edited by Chris Mawson with the assistance of Francesca Bion. Incorporating many corrections to previously published works, it also

features previously unpublished papers. Including a general index and editorial introductions to all the works, these volumes will be a useful and valuable aid to psychoanalytic scholars and clinicians, and all those interested in studying and making use of Bion's thinking. Bion's writings, including the previously unpublished papers and additions to his *Cogitations*, collected together in the *Complete Works*, show that the clinical thrust of Bion's work has clear lines of continuity with that of Melanie Klein, just as her work has an essential continuity with the later work of Freud. In Bion's clinical work and supervision the goal remains insightful understanding of psychic reality through a disciplined experiencing of the transference and countertransference; the setting and the method - however much Bion's terminology might suggest otherwise - remains rigorously psychoanalytic.
