Adaptation for insect pollination 1) Insect-pollinated flowers are large, colourful, fragrant and rich in nectar. 2) The flowers are small, a number of flowers are clustered into an inflorescence b) 1) pollen release and stigma receptivity are not at the same time.

Overview of the Book Stigma by

Erving Goffman

Stigma means different things to different people. One dictionary's definition is: "The shame or disgrace attached to something regarded as socially unacceptable." There may be a feeling of 'us and them'. People who are stigmatised are marked out as being different and are blamed for that difference. Many people have fears, prejudices or negative attitudes about HIV. Stigma can ...

2 Understanding Stigma of Mental and Substance Use ...

As defined in Chapter 1 and discussed in the introduction to this chapter, there are three distinct types of stigma: structural, public, and self. Figure 2-1 depicts these three main types of stigma and the consequences that result from each, as well as the possible targets for change and interventions that have been used to change stigmatizing attitudes, beliefs, and behaviors.

& Analysis | LitCharts
Stigma: Notes on the Management of
Spoiled Identity is a book written by
sociologist Erving Goffman in 1963
about the idea of stigma and what it is
like to be a stigmatized person. It is a
look into the world of people
considered abnormal by society.
Stigmatized people are those that do
not have full social acceptance and are
constantly striving to adjust their
social identities: physically ...
