New York Times Bestseller A Summer Reading Pick for President Barack Obama, Bill Gates, and Mark Zuckerberg From a renowned historian comes a groundbreaking narrative of humanity's creation and evolution—a #1 international bestseller—that explores the ways in which biology and history have defined us and enhanced our understanding of what it means to be “human.” One hundred thousand years ago, at least six different species of humans inhabited Earth. Yet today there is only one—homo sapiens. What happened to the others? And what may happen to us? Most books about the history of humanity pursue either a historical or a biological approach, but Dr. Yuval Noah Harari breaks the mold with this highly original book that begins about 70,000 years ago with the appearance of modern cognition. From examining the role evolving humans have played in the global ecosystem to charting the rise of empires, *Sapiens* integrates history and science to reconsider accepted narratives, connect past developments with contemporary concerns, and examine specific events within the context of larger ideas. Dr. Harari also compels us to look ahead, because over the last few decades humans have begun to bend laws of natural selection that have governed life for the past four billion years. We are acquiring the ability to design not only the world around us, but also ourselves. Where is this leading us, and what do we want to become? Featuring 27 photographs, 6 maps, and 25 illustrations/diagrams, this provocative and insightful work is sure to spark debate and is essential reading for aficionados of Jared Diamond, James Gleick, Matt Ridley, Robert Wright, and Sharon Moalem.

A Vindication of the Rights of Men Cambridge University Press

How Boston radio station WBCN became the hub of the rock-and-roll, antiwar, psychedelic solar system. While San Francisco was celebrating a psychedelic Summer of Love in 1967, Boston stayed buttoned up and battened down. But that changed the following year, when a Harvard Law School graduate student named Ray Riepen founded a radio station that played music that young people, including the hundreds of thousands at Boston-area colleges, actually wanted to hear. WBCN-FM featured album cuts by such artists as the Mothers of Invention, Aretha Franklin, and Cream, played by announcers who felt free to express their opinions on subjects that ranged from recreational drugs to the war in Vietnam. In this engaging and generously illustrated chronicle, Peabody Award-winning journalist and one-time WBCN announcer Bill Lichtenstein tells the story of how a radio station became part of a revolution in youth culture. At WBCN, creativity and countercultural politics ruled: there were no set playlists; news segments anticipated the satire of *The Daily Show*; on-air interviewees ranged from John and Yoko to Noam Chomsky; a telephone “Listener Line” fielded questions on any subject, day and night. From 1968 to Watergate, Boston's WBCN was the hub of the rock-and-roll, antiwar, psychedelic solar system. A cornucopia of images in color and black and white includes concert posters, news clippings, photographs of performers in action, and scenes of joyousness on Boston Common. Interwoven through the narrative are excerpts from interviews with WBCN pioneers, including Charles Laquidara, the “news dissector” Danny Schechter, Marsha Steinberg, and Mitchell Kertzman. Lichtenstein's documentary *WBCN and the American Revolution* is available as a DVD sold separately.

Common Sense and Ethics McGraw-Hill Higher Education

UX Design and Usability Mentor Book includes best practices and real-life examples in a broad range of topics like: UX design techniques Usability testing techniques such as eye-tracking User interface design guidelines Mobile UX design principles Prototyping Lean product development with agile vs. waterfall Use cases User profiling Personas Interaction design Information architecture Content writing Card sorting Mind-mapping Wireframes Automation tools Customer experience evaluation The book includes real-life experiences to help readers apply these best practices in their own organizations. The authors of VOYAGES IN WORLD HISTORY never forget that history is made up of the stories of people. Each chapter of the text centers on a story -- a traveler ' s account that highlights the book ' s main theme, the constant movement of people, goods, and ideas. The travelers include merchants, poets, rulers, explorers, soldiers, missionaries, and scholars, and their voyages provide a framework for each chapter that will capture students ' interest and draw them into the stories of the people, places, and events crucial to understanding world history. Special features highlight connections across chapters, societies, and periods, helping students understand historical events in a global context. Available in the following split options: VOYAGES IN WORLD HISTORY, Third Edition Complete, Volume 1: To 1600, and Volume 2: Since 1500. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The Better Angels of Our Nature Houghton Mifflin College Division

"The Prince" is a political treatise by Machiavelli that is not considered to be representative of the work published during his lifetime, but is the most remembered. The theories in this book describe methods that an aspiring prince can use to acquire the throne, or an existing prince can use to maintain his reign. These theories include defense and military, perceived reputation, generosity, cruelty versus mercy, gaining honors, fortune and a number of other discourses. It is customary for such as seek a Prince's favour, to present themselves before him with those things of theirs which they themselves most value, or in which they perceive him chiefly to delight. Accordingly, we often see horses, armour, cloth of gold, precious stones, and the like costly gifts, offered to Princes as worthy of their greatness.

Conjectures and Refutations Cengage Learning

This book is part of the TREDITION CLASSICS series. The creators of this series are united by passion for literature and driven by the intention of making all public domain books available in printed format again - worldwide. At tredition we believe that a great book never goes out of style. Several mostly non-profit literature projects provide content to tredition. To support their good work, tredition donates a portion of the proceeds from each sold copy. As a reader of a TREDITION CLASSICS book, you support our mission to save many of the amazing works of world literature from oblivion.

UX Design and Usability Mentor Book Thames & Hudson

Kamari Grade was a well-known troubleshooter for the most discerning clients. But when called to investigate one of the most powerful men in financing, she's thrown into the world of Huron Base. Financiers were usually polished in word and deed, but there was a sexy arrogance to Huron that blared former thug and it wasn't an image he wanted to forget. When the lovely troubleshooter crossed his path she was everything he loved about his life-challenge, drive, determination, strength, success, beauty ... For a man who could acquire anything, the allure of such a conquest was irresistible.

Dynamic digital resources, including award-winning InQuizitive activities and new History Skills Tutorials for every chapter, guide students from basic understanding basics to analysis and interpretation.

The Writings of Voltaire Kaplan Publishing

In 1790 came that "extraordinary outburst of passionate intelligence," Mary Wollstonecraft's reply to Edmund Burke's attack on the principles of the French Revolution entitled a "Vindication of the Rights of Men." In this pamphlet she held up to scorn Burke's defence of monarch and nobility, his merciless sentimentality. "It is one of

the most dashing political polemics in the language," Mr. Taylor writes enthusiastically, "and has not had the attention it deserves. . . . For sheer virility and grip of her verbal instruments it is probably the finest of her works. Some of her sentences have the quality of a sword-edge, and they flash with the rapidity of a practised duellist. It was written at a white heat of indignation; yet it is altogether typical of the writer that, in the midst of the work, quite suddenly, she had one of her fits of callousness and morbid temper, and declared she would not go on. With great skill Johnson persuaded her to take it up again; and with equal suddenness her eagerness returned, and the book was finished and published before any one else could answer Burke."

The Natural History of Chocolate McDougal Littell/Houghton Mifflin

"Outstanding. A great entry point for the developer and investor." - Brian Calle, Orange County Register

"Combines the experience of the authors to give a unique perspective on the important EB-5 program which drives capital formation and jobs across our country." - Congressman Jared Polis Whether you are a foreign investor seeking a United States green card or a domestic developer sourcing capital for your latest project, the United States EB-5 visa program offers unique opportunity. In an industry known to be difficult to understand, The EB-5 Handbook breaks down the EB-5 program into its simple basics- investment, economic growth, and green cards. In The EB-5 Handbook, investors and developers alike will learn the essentials of the program, the benefits it can offer, and how to get started on their EB-5 journey with sections uniquely tailored to each party. Ali Jahangiri of EB5 Investors Magazine has brought together an all-star team of experts from nearly every segment of the industry. The authors - Jeff Campion, Linda He, David Hirson, Linda Lau, Dawn Lurie, Joseph McCarthy, Al Rattan, Reid Thomas, John Tishler, Kyle Walker, and Kevin Wright - and the editors - Elizabeth Peng and Cletus Weber -all have an established history of success working with EB-5 investors and developers. The EB-5 Handbook is the first book of its kind to bring together such a diverse group of authors to increase transparency and knowledge of the EB-5 program.

Based on the 2006 Didsbury Lectures. A study of systematic doctrinal and constructive theology in nonconformist traditions.

A Brief History of Humankind MIT Press

More than three decades after its first publication, Edward Said's groundbreaking critique of the West's historical, cultural, and political perceptions of the East has become a modern classic. In this wide-ranging, intellectually vigorous study, Said traces the origins of "orientalism" to the centuries-long period during which Europe dominated the Middle and Near East and, from its position of power, defined "the orient" simply as "other than" the occident. This entrenched view continues to dominate western ideas and, because it does not allow the East to represent itself, prevents true understanding. Essential, and still eye-opening, Orientalism remains one of the most important books written about our divided world.
